

APPENDIX 2

At the December 7, 2011, public meeting, COAC voted and approved the following six (6) recommendations from the Global Supply Chain Land Border Security subcommittee:

1. Establish Tier 3 status for U.S./Mexico and U.S./Canada highway carriers.
2. Allow SVI (Status Verification Interface) number query access for all users.
3. Develop C-TPAT status for exporters.
4. Obtain user input for C-TPAT web portal 2.0.
5. Share an external version of the National Business Continuity Management template as soon as it is available.
6. Establish a C-TPAT working group to operate under the Global Supply Chain Security Subcommittee.
