**20a. How does the Committee accomplish its purpose?**

This Board assesses the quality of the Institute's Intramural Research Program (IRP) and evaluates the productivity and performance of staff scientists, necessary functions for the operation of a highly effective intramural research program. The Board is composed of scientific and technical experts. The Board continues to provide indispensable evaluations and advice in the scientific management of IRP. In addition to the

peer review of each laboratory, the Chair and individual members of the Board are frequently consulted for advice on program development and staff appointments. The Board's crucial role is assuring the continued high quality of NIA intramural research and this was demonstrated by the reviews held during the past year. In October 2023, only two concepts were discussed and reviewed. In May 2024, the Laboratory of Behavioral Neuroscience (LBN) and the Laboratory of Epidemiology and Population Sciences (LEPS) and one concept were reviewed.

**20b. How does the Committee balance its membership?**

The Board will consist of fourteen members, approximately, including the Chair, appointed by the Director, NIH, from authorities knowledgeable in the fields with respect to the aging process and the diseases and other special problems and needs of the aged.

**20c. How frequent and relevant are the Committee Meetings?**

Meetings are generally held twice a year. In FY 2024, meetings were held in October 2023 and May 2024

**20d. Why can't the advice or information this committee provides be obtained elsewhere?**

The Board is composed of recognized biomedical research authorities from outside the NIH in order to secure unbiased and objective evaluation of intramural research programs. Their recommendations are invaluable because the complex nature of research in each laboratory requires a unique balance and breadth of expertise not available on the NIH staff or from other established resources.

## **20e. Why is it necessary to close and/or partially closed committee meetings?**

The meetings of the Board were partially closed for the review, discussion, and evaluation of individual programs and projects conducted by the Institute, including consideration of personnel qualifications and performance, the competence of individual investigators and other similar items.

Section 552b(c)(6) of the Government in the Sunshine Act permits the closing of meetings where discussion could reveal personal information, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

## **21. Remarks**

Committee Function: Other - Scientific and Technical Peer Review. Reports: This committee did not produce any public reports during the fiscal year. DFO/Committee Decision Maker: Based on the assignment of responsibilities in this Institute, the roles of the committee's designated federal officer and the committee decision maker are held by the same individual. Andrea LaCroix's position as Chair ended 6/30/2024; Holly Brown-Borg has been chosen to move to Chair for the remainder of her term (6/30/2026) URL: This committee does not have a website.

**Narrative Description**

NIH's mission is to seek fundamental knowledge about the nature and behavior of living systems and the application of that knowledge to enhance health, lengthen life, and reduce illness and disability. NIH works toward that mission by conducting research in its own laboratories. The mission of the Board of Scientific Counselors is to assess the quality of the Institute's intramural research programs and to evaluate the productivity and performance of intramural scientists in accordance with Section 492(b) of the PHS Act, as amended and shall also, as requested by the Director, NIH, undertake peer review of extramural funding applications as required by section 492(a) of the Public Health Service Act, as amended.

### **Cost Savings Comments**

NIH supported basic and clinical research accomplishments often take many years to unfold into new diagnostic tests and new ways to treat and prevent diseases.

**What is the approximate Number of recommendations produced by this committee for the life of the committee?**

109

### **Number of Recommendations Comments**

During each meeting the members evaluate the scientific programs of three or four Laboratories/Branches (every Lab/Branch is evaluated once every four years) and will review the progress of junior scientists at the midpoint of or during the final year of the six to eight year period of their tenure track appointment. There were two recommendations added this year.

**What is the approximate Percentage of these recommendations that have been or will be Fully implemented by the agency?**

0%

### **% of Recommendations Fully Implemented Comments**

Information on the research funded by NIH is available through the RePORT (Research Portfolio Online Reporting Tool) website. RePORT provides access to reports, data, and analyses of NIH research activities that advance the mission of the NIH, including information on NIH expenditures, strategic plans, reports on NIH funding, and reports on the organization and people involved in NIH research and research training. The RePORT website is located at <http://report.nih.gov>.
