20a. How does the Committee accomplish its purpose?

Please note that under the Help America Vote Act (HAVA – 42 USC 15361.Sec. 221) both the U.S. Election Assistance Commission (EAC) and the National Institute for Standards and Technology (NIST) have joint responsibility for the Technical Guidelines Development Committee (TGDC). HAVA designates the Director of NIST, a full-time Federal employee, nominated by the President and confirmed by the Senate as Committee Chair. Costs in this section are reflective of that statutory responsibility. TGDC functions are set out in law and the National Institute for Standards and Technology (NIST) is instructed to work with the committee and EAC to set these guidelines. Information related to TGDC can be accessed at <http://www.nist.gov/itl/vote> and TGDC working group meetings can be accessed at <http://www.nist.gov/itl/vote/subcomm-work.cfm>. Also at <https://www.nist.gov/itl/voting/general-information-about-nist-eac-public-working-groups>.

20b. How does the Committee balance its membership?

The membership of the Technical Guidelines Development Committee (TGDC) is established by Section 221 of the Help American Vote Act of 2002. All members and representatives were chosen in keeping with the provisions of that statute.

20c. How frequent and relevant are the Committee Meetings?

The Technical Guidelines Development Committee (TGDC) meets when necessary to provide the EAC with guidance on technical guideline development, generally twice per year for plenary sessions. The frequency of working group meetings increased to support expanded congressional mandates concerning voting for Uniformed and Overseas Citizen Voters (UOCAVA).

20d. Why can't the advice or information this committee provides be obtained elsewhere?

The Help America Vote Act (HAVA) established the Technical Guidelines Development Committee (TGDC) to provide expert guidance for the U.S. Election Assistance Commission's (EAC) responsibility to issue Voluntary Voting System Guidelines. HAVA requires use of the TGDC, supported by technical input from the National Institute for Standards and Technology (NIST), to ensure that voting systems enable all voters to vote securely, privately and independently and that voting systems employ sound technology to support these goals. TGDC also provides technical guidance concerning voting technology for Uniformed and Overseas Citizen Absentee Voting (UOCAVA) as identified in HAVA and other congressional mandates.

20e. Why is it necessary to close and/or partially closed committee meetings?

N/A

21. Remarks

In accordance with P.L. 107-252 (41 U.S.C. Sec. 15361, Chap. 146, Subpart) 3), the National Institute of Standards and Technology (NIST) provides Technical Support for TGDC.

Narrative Description

The TGDC provides technical guidance and assistance to the EAC in developing voluntary voting system guidelines and guidance for overseas voting, as required by the Help America Vote Act (HAVA) and other Congressional mandates. This process sometimes takes more than one fiscal or calendar year in order to put forth recommendations or reports. Once recommendations are put forth, the staff utilizes the information to create a final document to EAC Commissioners for a vote.

Number of Recommendations Comments

The TGDC met twice in FY2017. At the February 2017 meeting, the TGDC agreed on the scope of the 2002 VVSG and identified 17 core functions to which the VVSG should encompass. At the September meeting, the TGDC adopted a resolution on Ensuring

Accessibility and Security for voters with disabilities regarding voting systems that utilize a paper record to satisfy auditability principles, and associated guidelines. The TGDC also recommended a set of Principles and Guidelines, referred to as VVSG 2.0, for certification by the EAC.

What is the approximate Percentage of these recommendations that have been or will be Fully implemented by the agency?

100%

% of Recommendations Fully Implemented Comments

BACKGROUND - The TGDC's first major set of recommendations culminated in EAC's adoption of the Voluntary Voting System Guidelines Version 1 (VVSG Version 1 - TGDC's Deliverable to the EAC, the basis for EAC VVSG 2005.) The TGDC's second major set of work recommendations include updates and revisions to the 2005 VVSG. The EAC is now reviewing revisions to the VVSG version 1 that are based on extensive public comments and expert input. EAC is publishing VVSG 1.1 for another round of public comments. The Help America Vote Act (HAVA) and EAC governance, requires a quorum of presidentially appointed EAC Commissioners confirmed by the Senate to approve and implement any future voluntary voting guidelines.

What is the approximate Percentage of these recommendations that have been or will be Partially implemented by the agency?
