20a. How does the Committee accomplish its purpose?

The Federal Accounting Standards Advisory
Board (FASAB or "the Board") has three
government agency sponsors: the Department of
the Treasury, the Office of Management and
Budget, and the Government Accountability
Office. In carrying out its purpose, the Board, after
discussion, issues an Exposure Draft on a
proposed accounting standard or other issuance,
seeking public comment on it. The Board then
considers all comments, and revises the proposal

as appropriate. The Board then submits its federal financial accounting standard to its three sponsors. After all three sponsors review it, if neither OMB or GAO object, FASAB issues it. The standards are designed to improve the usefulness of financial reports based on the needs of users and on the primary characteristics of understandability, relevance, and reliability. The adopted accounting standards should support the common understanding of information in government-wide and agency financial reports.

20b. How does the Committee balance its membership?

The Board's membership reflects the financial management viewpoints of the three principals: fiscal policy (Treasury), auditing (GAO), and management (OMB); and six non-federal members. Specifically, the Board's nine member composition consists of three federal and six non-federal members as follows: GAO, OMB, Treasury, and six non-federal members from the general financial community, the accounting and auditing community, and academia. Each of these members speaks from his/her own background and experience. The chair is drawn from among the non-federal members. Balance is maintained through the Appointments Panel convened to assist in selecting new non-federal members. The panel comprises both federal and non-federal members and considers the variety of experience and viewpoints represented in identifying new members for appointment.

20c. How frequent and relevant are the Committee Meetings?

Meetings are generally held every other month with occasional public hearings on a particular proposed accounting standard or concept. This approach provides continuity and opportunity for continuing dialogue among the members as a basis for developing accounting standards.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

No systematic detailed consideration, including due process, had ever been given to the development of federal accounting standards. FASAB is now carrying out this task, based on its mandate from the Secretary of the Treasury, the Comptroller General, and Director of the Office of Management and Budget. FASAB follows due process procedures that ensure the public has an opportunity to participate. Currently, the Board is considering accounting standards addressing land, climate-related financial reporting, intangible assets, leases, omnibus amendments, public-private partnerships, reexamination of existing standards, concepts omnibus, management's discussion and analysis, and SFFAS 3: seized and forfeited digital assets.

20e. Why is it necessary to close and/or partially closed committee meetings?

Appointments Panel meetings may be closed to the public. The reason for the closures is that matters covered by 5 U.S.C. 552b(c)(2) and (6) are discussed.

21. Remarks

The non-federal members (special government employees) are appointed by all three sponsoring agencies: the Department of the Treasury, the Office of Management and Budget, and the Government Accountability Office.

Outcome Comments

The requirement for annual audited financial statements enhances trust in government and improves information available to decision makers to improve service delivery. Without accounting standards established in a transparent manner, the reports would not be comparable and consistent. The Board's work supports implementation of the CFO Act as amended.
