18d. Total	\$0.00	\$0.00
19. Federal Staff Support Years (FTE)	0.00	0.00

20a. How does the Committee accomplish its purpose?

The Coast Guard considers the Committee's input when making certain management decisions and when drafting applicable regulations. The Committee represents the wide range of perspectives that are necessary to ensure that Coast Guard policies and rulemaking address the issues that pertain to the industry. The Coast

Guard is able to task specific assignments such as training, stability and voluntary standards to this group to obtain advice. The Committee's input and recommendations are especially valuable now, as the Coast Guard seeks to implement a host of new congressional requirements, through policy and rulemaking from the Frank LoBiondo Coast Guard Authorization Act of 2018, 2015, 2012, 2010 and the repeal of Executive Order 13771.

20b. How does the Committee balance its membership?

The Committee is composed of 18 members as follows: 10 members of the fishing industry who reflect regional and representational balance; 1 member representing naval architects or marine surveyors; 1 member representing manufacturers of fishing vessel safety equipment; 1 member representing education or training professionals relating to fishing vessels; 1 member representing underwriters that insure fishing vessels; 1 member representing owners of vessels to which Chapter 45 of Title 46, U.S.C. applies; and 3 members representing the general public composed of, whenever possible, an independent expert or consultant in maritime safety, a marine surveyor who provides services to vessels to which Chapter 45 of Title 46 U.S.C. applies, and a person familiar with issues affecting fishing communities and families of fishermen.

20c. How frequent and relevant are the Committee Meetings?

It is expected the Committee will meet at least twice each calendar year, but may meet more frequently as needs may require. In FY23, the Committee met in Norfolk, VA on May 23-25 2023 and again in Seattle, WA on September 26-28, 2023.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

This Committee acts in an advisory capacity to the Commandant of the United States Coast Guard, the Secretary of the Department of Homeland Security, on matters relating to the safety of commercial fishing industry vessels. The previous Committee was instrumental in helping to develop the first ever safety regulations for the commercial fishing industry in 1988. There are no other committees which deal with exactly the same subject matter. However, the Magnuson-Stevens Act requires the Fishery Management Councils, administered by the Department of Commerce, to address safety in their fishery management decisions. The Committee has continued to provide valuable recommendations on education, outreach, and additional areas for regulations and voluntary standards that could improve upon the safety record of this industry. The Coast Guard Authorization Act of 2010 expands construction, equipment, and oversight requirements for commercial fishing industry vessels. A series of proposed rules will be required to implement the new regulations over the next few years. The new national Committee has convened two times since the 2018 new national Committee authorization, continuing their work on safety issues from the past. The meetings have focused largely on the advising the Coast Guard casualty investigations and implementing the voluntary best guidance practices. The Coast Guard is primarily concerned with operational casualties and fatalities. The passage of the 2018 Coast Guard Authorization Act makes the new National Commercial Fishing Safety Advisory Committee's work especially important as the USCG works to implement new congressional requirements.

20e. Why is it necessary to close and/or partially closed committee meetings?

N/A

21. Remarks

Under 46 U.S.C. § 15109(m), the Committee is authorized to continue until September 30, 2029.

Designated Federal Officer

Mark R Neeland Chief, Office of Commercial Vessel Compliance (CG-CVC)

Committee Members	Start	End	Occupation	Member Designation

Number of Committee Members Listed: 18

Narrative Description

The Committee will advise, consult with, and make recommendations reflecting the Committee's independent judgment on Coast Guard taskings relating to the safe operation of vessels to which Chapter 45 of Title 46 U.S.C. applies, including navigational safety, safety equipment and procedures, marine insurance, vessel design, construction, maintenance and operation and personnel qualification and training. In FY23, the Committee met twice for 3 days each in both Norfolk, VA and Seattle, WA.

What are the most significant program outcomes associated with this committee?

Checked if
Applies

Improvements to health or safety	<input checked="" type="checkbox"/>
Trust in government	<input type="checkbox"/>
Major policy changes	<input checked="" type="checkbox"/>
Advance in scientific research	<input type="checkbox"/>
Effective grant making	<input type="checkbox"/>
Improved service delivery	<input type="checkbox"/>
Increased customer satisfaction	<input type="checkbox"/>
Implementation of laws or regulatory requirements	<input checked="" type="checkbox"/>
Other	<input type="checkbox"/>

Outcome Comments

N/A

What are the cost savings associated with this committee?

Checked if Applies

None	<input type="checkbox"/>
Unable to Determine	<input checked="" type="checkbox"/>
Under \$100,000	<input type="checkbox"/>
\$100,000 - \$500,000	<input type="checkbox"/>
\$500,001 - \$1,000,000	<input type="checkbox"/>
\$1,000,001 - \$5,000,000	<input type="checkbox"/>
\$5,000,001 - \$10,000,000	<input type="checkbox"/>
Over \$10,000,000	<input type="checkbox"/>
Cost Savings Other	<input type="checkbox"/>

Cost Savings Comments

When new or revised rules require vessel owners/operators to add or upgrade safety and survival equipment on their vessels, there most likely is no cost saving to their operations. Additionally, any mandatory training and required refresher training has the ability to easily prohibit cost savings to the industry or American Taxpayer. However, if one considers that the number of vessel losses and fatalities have decreased considerably since the safety requirements were mandated, there likely has been an overall cost savings to the industry and fishing community relative to property loss and loss of life. A better analysis is needed to address any cost savings comments because the significant drop in active commercial fishing vessels operating since 1988 is also largely attributable to the relevant and documented decrease in the loss of life and property during this time frame.

What is the approximate Number of recommendations produced by this committee for the life of the committee?

11

Number of Recommendations Comments

In FY23, the Committee met twice and made approximately 11 recommendations.

What is the approximate Percentage of these recommendations that have been or will be Fully implemented by the agency?

18%

% of Recommendations Fully Implemented Comments

2/11 = 18.18%

What is the approximate Percentage of these recommendations that have been or will be Partially implemented by the agency?

18%

% of Recommendations Partially Implemented Comments

2/11 = 18.18% 7 NCF SAC recommendations are under consideration by USCG but have not been fully or partially implemented to date.

Does the agency provide the committee with feedback regarding actions taken to implement recommendations or advice offered?

Yes ☒ No ☐ Not Applicable ☐

Agency Feedback Comments

Periodically, a teleconference may be held to provide status updates on recommendations and information regarding program initiatives and actions; no business is conducted, or recommendations entertained. Traditionally at the next meeting, the Committee will revisit Old Business to review the actions of the preceding meeting, review past recommendations and progress made on them, and the results of any action on recommendations. USCG comments to NCF SAC recommendations for each meeting are posted and can be found at: <https://www.dco.uscg.mil/NCFSAC2023/>

What other actions has the agency taken as a result of the committee's advice or recommendation?

Checked if Applies

Reorganized Priorities	<input type="checkbox"/>
Reallocated resources	<input type="checkbox"/>
Issued new regulation	<input checked="" type="checkbox"/>
Proposed legislation	<input checked="" type="checkbox"/>
Approved grants or other payments	<input type="checkbox"/>
Other	<input type="checkbox"/>

Action Comments

Reorganization of priorities and reallocation of resources may not be as a direct result of committee recommendations, however, any changes implemented may be influenced by committee input. Input from the committee often influences how outreach and educational activities are conducted with the industry.

Is the Committee engaged in the review of applications for grants?

No

Grant Review Comments

How is access provided to the information for the Committee's documentation?
