20a. How does the Committee accomplish its purpose?

The Board is composed of members who are distinguished scientists from outside the NCI and representatives from the advocacy community. The Board provides scientific advice on a wide variety of matters concerning scientific program policy, progress and future direction of the

extramural research programs, and concept review of extramural program initiatives. This includes the evaluation of NCI awarded grants, oversight of concept review of cooperative agreements and contracts initiatives and those activities which it considers meritorious and consistent with the Institute's programs. The advisory role of the Board is scientific and does not include deliberation on matters of public policy. In FY2025, the BSA presented reports on various topics related to cancer research in general as well as legislative matters. The Board reviewed and deliberated on request for application (RFA) concepts covering a wide variety of topics including the following: The Experimental Therapeutics Clinical Trials Network (ETCTN) (Re-issue RFA/Coop. Agr.), NCI Community Oncology Research Program (NCORP) (Re-issue RFA), Phase 4: U.S. and Low- and Middle-Income Countries (LMICs) HIV Associated Malignancy Research Centers (RFA/Coop. Agr.), Global Training for Research and Equity in Cancer (GlobTREC) (Re-issue RFA/Coop. Agr.), Cancer Intervention and Surveillance Modeling Network (CISNET) Reissue (U01 Clinical Trial Not Allowed (RFA/Coop. Agr.), Informatics Technology for Cancer Research (ITCR) (Re-issue RFA/Coop. Agr.).

20b. How does the Committee balance its membership?

The Board consists of up to 35 members, including the Chair, appointed by the Director, NCI, from authorities knowledgeable in the fields of laboratory, clinical and biometric research, clinical cancer treatment, cancer etiology, and cancer prevention and control, with emphasis on training and experience in the various disciplines and fields related to scientific areas relevant to

carcinogenesis, cancer biology and diagnosis, cancer center administration, medicine, radiological and surgical oncology, cancer chemotherapy, cancer epidemiology, cancer prevention and control, cancer education, cancer information services, community outreach, biological, chemical and physical carcinogenesis, DNA repair and effects, tumor biology and immunology, humoral and cellular immunity, hematopoiesis, cell differentiation and transformation, oncogenes and growth factors, molecular and structural biology and genetic regulation, viral oncology, vaccine development, transplantation, chemotherapy, clinical trial design, management and evaluation, pharmacology, drug development and developmental therapeutics, genetic and immunotherapies, pathology, diagnostic research and cytogenetics, biological response modifiers, imaging, nutrition, survey research, epidemiology, biostatistics, rehabilitation, psychology and behavioral medicine, public health and community oncology, quality of life, pain management, cancer detection and diagnosis, cancer treatment and restorative care, dentistry, nursing, public health, nutrition, education of health professionals, medical oncology, surgery, radiotherapy, gynecologic oncology, pediatric oncology, pathology, and biostatistics. Geographical, gender, ethnic and racial considerations are addressed in selecting members for appointment to the Board.

20c. How frequent and relevant are the Committee Meetings?

Meetings are held typically three times a year. The committee met once during this reporting period. The Board met jointly with the National Cancer Advisory Board for the virtual November 2024. The Board's deliberations are an indispensable

part of the review of a very large part of the Institute's extramural program, as well as concept review of request for applications (RFAs), program announcements with special receipt, referral, and review (PARs), and research and development (R&D) requests for proposals (RFP) contract initiatives in the extramural research program. According to the Board's charter, approximately three formal meetings are held each year for the review of the extramural programs and concept review of RFAs; cooperative agreements; and research and development RFPs.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

This Board is composed of recognized biomedical research authorities from outside the NIH in order to secure unbiased and objective evaluations of extramural research programs. Their recommendations are invaluable because the complex nature of the research requires a unique balance and breadth of expertise not available at NIH or from other established sources.

20e. Why is it necessary to close and/or partially closed committee meetings?

N/A

21. Remarks

Per "2025 Secretary Directive" this FACA Committee has been terminated. Members Rotating Off/Vacancies/Members On-Boarding: 8 members were on boarded [Suzanne D. Conzen, Debra L. Friedman, William C. Hahn, Wells A. Messersmith, Katherine A. Rendle, Charles M. Rudin, George J. Weiner, and Kris C. Wood]. The Board currently has 7 vacancies. This is why the Charter states 35 potential members, but this ACR lists 28. The Committee Decision Maker and

Designated Federal Official positions are held by the same individual because of the assignment of responsibilities within the Institute. Reports: This committee did not produce any public reports.

Narrative Description

NIH's mission is to seek fundamental knowledge about the nature and behavior of living systems and the application of that knowledge to enhance health, lengthen life, and reduce illness and disability. NIH works toward that mission by the National Cancer Institute Board of Scientific Advisor's (BSA). The BSA is composed of distinguished scientists from outside the NCI and representatives from the advocacy community. The BSA provides scientific advice on a wide variety of matters concerning scientific program policy, reviews the progress and future direction of the extramural research programs, and concept review of extramural program initiatives. This includes the oversight of research and development, concept review of request for applications, cooperative agreements, initiatives and other programmatic activities. The advisory role of the BSA is scientific and does not include deliberation on matters of public policy. The BSA represents the scientific community's voice in the extramural science the NCI supports. As such, the Board advises the NCI leadership on the progress and future direction of the Institute's Extramural Research Program. The Board evaluates NCI extramural programs, and reviews ideas for new research opportunities and solicitations to ensure that a concept is meritorious and consistent with the Institute's mission. Additionally, the BSA believes it is important to interact with and receive feedback from the clinical, population science, and laboratory research communities affected by NCI policies. The BSA's deliberations are an indispensable part of the review of a very large part of the Institute's extramural program.

What are the most significant program outcomes associated with this committee?

	Checked if Applies
Improvements to health or safety	<input checked="" type="checkbox"/>
Trust in government	<input type="checkbox"/>
Major policy changes	<input type="checkbox"/>
Advance in scientific research	<input checked="" type="checkbox"/>
Effective grant making	<input type="checkbox"/>
Improved service delivery	<input type="checkbox"/>
Increased customer satisfaction	<input type="checkbox"/>
Implementation of laws or regulatory requirements	<input type="checkbox"/>
Other	<input checked="" type="checkbox"/>

Outcome Comments

Based on the approval of the various RFA and RFP concepts, significant advances in cancer research could lead to new treatments, prevention and control initiatives, behavioral modifications and cures for different cancer sites. Another outcome is the annual posting of the RFA Report.

Cost Savings Comments

Meetings are held not less than three times a year. The committee met three times during this reporting period. The Board met jointly with the National Cancer Advisory Board for the virtual November 2023 and in-person/hybrid June 2024 meetings. The Board also met virtually in March 2024. Additionally, RFA and RFP concepts are reviewed annually to determine the need for reissuance based on the Board recommendations. Ad hoc Subcommittee and/or working group meetings are held to gather information.

Recommendations are reported back at a full board meeting where advice is given to the Institute. The BSA supports the Institute in meeting its mission and as a result even though it can't be calculated, there are substantive savings.

What is the approximate Number of recommendations produced by this committee for the life of the committee?

549

Number of Recommendations Comments

In addition to general recommendations, specific recommendations by the committee include: 1. A motion to concur on the DCTD's re-issue RFA/Coop. Agr. entitled "The Experimental Therapeutics Clinical Trials Network (ETCTN)" was approved unanimously. 2. A motion to concur on the DCP's re-issue RFA entitled "NCI Community Oncology Research Program (NCORP)" was approved unanimously. 3. A motion to approve the DCTD's new PAR entitled "Cancer Tissue-on-Chip (ToC) Technologies for Improved Preclinical Efficacy Evaluation of Therapies in Oncology" was approved with 21 ayes, 0 nays, 0 abstentions, and 7 deferrals. 4. A motion to approve the Office of the Director's (OD) new RFA/Coop. Agr. entitled "Phase 4: U.S. and Low- and Middle-Income Countries (LMICs) HIV-Associated Malignancy Research Centers" was approved unanimously. 5. A motion to concur on DCCPS' re-issue RFA/Coop. Agr. entitled "Cancer Intervention and Surveillance Modeling Network (CISNET) Re-issuance (U01 Clinical Trial Not Allowed)" was approved unanimously. 6. A motion to approve the OD's new PAR entitled "The Academic Career Excellence (ACE) Award, Including Awards to Promote Diversity" was approved unanimously. 7. A motion to concur on the OD's re-issue RFA/Coop. Agr. entitled "Informatics Technology for Cancer Research (ITCR)" was approved unanimously. 8. A motion to approve the OD's new PAR entitled "Cancer Moonshot Scholars Program" was approved unanimously.

What is the approximate Percentage of these recommendations that have been or will be Fully implemented by the agency?

90%

% of Recommendations Fully Implemented Comments

The percentage of recommendations implemented as stated above was developed at the time the Annual Comprehensive Review report was prepared. Additional information is available through the RePORT (Research Portfolio Online Reporting Tool) website. RePORT provides access to reports, data, and analyses of NIH research activities that advance the mission of the NIH, including information on NIH expenditures, strategic plans, reports on NIH funding, and reports on the organization and people involved in NIH

research and research training. The RePORT website is located at <http://report.nih.gov>

Does the agency provide the committee with feedback regarding actions taken to implement recommendations or advice offered?

Yes ☒ No ☐ Not Applicable ☐

Agency Feedback Comments

The NCI Director's Report is presented at each Board meeting. Each NCI Division gives an update regarding progress of approved RFAs, cooperative agreements and contract concepts. Also, the Annual RFA Report is presented at each November/December Joint BSA/National Cancer Advisory Board meeting to show RFAs published and reviewed. A list of action items are assigned to individual NCI staff with specific time frames with deadlines. Information is provided to the public at each meeting. The public can view information related to the Board through the BSA official website.
