**20a. How does the Committee accomplish its purpose?**

The Army Science Board (ASB) shall provide independent advice and recommendations on matters relating to (a) the Army's scientific, technical, manufacturing, acquisition, logistics, and business management functions; (b) environmental and water resource management issues involving the U.S. Army Corps of Engineers (USACE), to include the Military Program and the Civil Works Program; and (c) other Department of the Army-related matters as determined by the Secretary of Defense, Deputy Secretary of Defense or the Secretary of the Army, as the Board's sponsor.

**20b. How does the Committee balance its**

**membership?**

The Board shall be composed of not more than 20 members who are prominent authorities in one or more of the following disciplines: science; technology; manufacturing; acquisition; logistics; business management functions natural (e.g., biology, ecology), social (e.g., anthropology, community planning), and related sciences; and other matters of special interest to the Department of the Army. The ASB is balanced across both the technical specialties needed to perform ASB studies, and across the sector in which they work, with a view to obtaining a balance across small businesses, medium to large businesses, Federally Funded Research and Development Centers and non-profit organizations, and academia.

**20c. How frequent and relevant are the Committee Meetings?**

The Army Science Board holds a General Membership Meeting each year for all current members to discuss the annual study topic and form into panels to tackle the work involved in researching the issue and formulating a report. Additionally, the annual General Membership Meeting is the forum to educate new members about administrative requirements, to update member knowledge of current Army activities, and review report findings and recommendations. Teleconferences are also used to reduce travel costs. All physical meetings are carefully planned in advance with published agendas to ensure mission focus and judicious use of the time available.

**20d. Why can't the advice or information this committee provides be obtained elsewhere?**

The Secretary of Defense has determined that no

other DoD advisory committee can provide the independent advice provided by the board to the Secretary of the Army on complex scientific and technical issues facing the Department of the Army.

**20e. Why is it necessary to close and/or partially closed committee meetings?**

Meetings are not closed to the public unless the Department of Defense determines that items on the planned agenda meet the closed meeting provisions of 5 U.S.C. § 552b(c-1). Pursuant to DoD policy, closed meetings can only be authorized by the Secretary of the Army as the Board's DoD Sponsor and after consultation and approval of the Office of the Army General Counsel.

**21. Remarks**

**Designated Federal Officer**

Heather J. Gerard Executive Director, Army Science Board

**What is the approximate Number of recommendations produced by this committee for the life of the committee?**

3,815

### Number of Recommendations Comments

In FY24 the board made 74 recommendations. We are also in the process of determining which ones will be adopted or partially adopted.

**What is the approximate Percentage of these recommendations that have been or will be Fully implemented by the agency?**

65%

### % of Recommendations Fully Implemented Comments

This is an approximate percentage based upon the best information that we have. Often, the concepts and capabilities recommended in studies take time to be evaluated and to gain traction within the agencies that will ultimately act upon these recommendations.

**What is the approximate Percentage of these recommendations that have been or will be Partially implemented by the agency?**

25%

### % of Recommendations Partially Implemented Comments

This is an approximate percentage using the best information available. Often, the concepts and capabilities recommended in studies take time to be evaluated and to gain traction within the agencies that will ultimately act upon these recommendations.

**Does the agency provide the committee with feedback regarding actions taken to implement recommendations or advice offered?**

Yes ☒ No ☐ Not Applicable ☐

### Agency Feedback Comments

The Army Science Board (ASB) Secretariat receives input from the study sponsors in the Army Secretariat, Army General Staff and Army Commands regarding the ASB activities. The public can obtain agency feedback to committee recommendations in the official unclassified meeting minutes.

**What other actions has the agency taken as a result of the committee's advice or recommendation?**
