18b(4). Travel and Per Diem to Non-member Consultants	\$0.00	\$0.00
18c. Administrative Costs (FRNs, contractor support, In-person/hybrid/virtual meetings)	\$0.00	\$0.00
18d. Other (all other funds not captured by any other cost category)	\$0.00	\$0.00
18e. Total Costs	\$0.00	\$0.00
19. Federal Staff Support Years (FTE)	0.00	0.00

20a. How does the Committee accomplish its purpose?

ASCAC is charged by the Director for Science (SC), to: periodically review elements of the Advanced Scientific Computing Research program and provide recommendations based thereon; provide advice on long range plans, priorities, and strategies to address more effectively the scientific aspects of advanced scientific computing including the relationship to other scientific disciplines; provide advice on appropriate levels of funding to

develop those plans, priorities, and strategies; and provide advice on national policy and scientific issues related to advanced scientific computing that are of concern to the Department of Energy as requested by the Secretary or the Under Secretary for Science. The committee responds to charges, at the direction of the Director of the Office of Science, that are then discussed at public meetings.

20b. How does the Committee balance its membership?

Committee members are chosen to ensure an appropriately balanced representation of various points of view and functions of interested stakeholders and professionals as required by the Federal Advisory Committee Act, as amended, and implementing regulations. Particular attention is given to obtaining diversity including interests, experiences, points of view, and geography as required by the Federal Advisory Committee Act (Public Law 92-463), and implementing regulations.

20c. How frequent and relevant are the Committee Meetings?

The ASCAC meets, on average, three times a year and reports on a continuing basis to the Under Secretary for Science. The ASCAC also responds to direct charges from the Director of the Office of Science in the form of formal reports. In FY 2024, the committee met twice and produced one report.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

The advice and recommendations provided by ASCAC on computational science and advanced computing and network facilities in support of all

departmental programs is essential to national research needs and priorities. The requisite knowledge and experience is not available within the DOE or its existing committees, and cannot be provided by a single contractor.

20e. Why is it necessary to close and/or partially closed committee meetings?

ASCAC meetings are always open to the general public.

21. Remarks

The committee costs for the ASCAC were lower than would be expected over the last few years due to COVID related shift to virtual or hybrid meetings and temporary reduction in the number of annual meetings.

Narrative Description

ASCAC provides valuable, independent advice to DOE on a variety of complex scientific and technical issues related to its Advanced Scientific Computing Research Program. Recommendations include advice on long-range plans, priorities and strategies to address more effectively the scientific aspects of advanced scientific computing including the relationship to other scientific disciplines.

What are the most significant program outcomes associated with this committee?

	Checked if Applies
Improvements to health or safety	<input type="checkbox"/>
Trust in government	<input checked="" type="checkbox"/>
Major policy changes	<input type="checkbox"/>
Advance in scientific research	<input checked="" type="checkbox"/>
Effective grant making	<input type="checkbox"/>
Improved service delivery	<input type="checkbox"/>
Increased customer satisfaction	<input type="checkbox"/>
Implementation of laws or regulatory requirements	<input type="checkbox"/>
Other	<input type="checkbox"/>

Outcome Comments

Trust in Government: Trust in government is advanced by the completely open, public nature of all proceedings, committee meetings and reports; through provision for public comment following all committee meetings; and through a comprehensive and informative website. Advance in scientific research: Advance in scientific research is facilitated and supported by actions stated in the committee's mission statement. ASCAC is influential in

the community. ASCAC reports highlight state-of-the-art research in related fields and encourages further contributions and progress.

What are the cost savings associated with this committee?

Checked if Applies

None	<input type="checkbox"/>
Unable to Determine	<input checked="" type="checkbox"/>
Under \$100,000	<input type="checkbox"/>
\$100,000 - \$500,000	<input type="checkbox"/>
\$500,001 - \$1,000,000	<input type="checkbox"/>
\$1,000,001 - \$5,000,000	<input type="checkbox"/>
\$5,000,001 - \$10,000,000	<input type="checkbox"/>
Over \$10,000,000	<input type="checkbox"/>
Cost Savings Other	<input type="checkbox"/>

Cost Savings Comments

NA

What is the approximate Number of recommendations produced by this committee for the life of the committee?

127

Number of Recommendations Comments

Since the formation of ASCAC, in 1999 to FY 2024, the committee has issued 46 reports and made over 193 recommendations, with 127 actionable recommendations. In FY 2024, the ASCAC accepted one report with 3 recommendations for ASCR and 5 project specific recommendations from their review of proposed facility investments. There is one open charge: to review the Computational Science Graduate Fellowship.

What is the approximate Percentage of these recommendations that have been or will be Fully implemented by the agency?

65%

% of Recommendations Fully Implemented Comments

Implementation of recent recommendations is an on-going process. However, the program has implemented many of the older recommendations including the establishment of leadership computing facilities, establishment of exascale research effort as a DOE project, new efforts in quantum, AI and integrated data infrastructure, changes within OSTI, doubling the funding for ASCR's fellowship, and numerous program

management recommendations from COV subcommittees.

What is the approximate Percentage of these recommendations that have been or will be Partially implemented by the agency?

31%

% of Recommendations Partially Implemented Comments

The nature of many recommendations require that implemented be seen as a partial response but on-going. For example, the recommendations from recent report on International Competitiveness and facilities will be considered on-going for many years. Some historical recommendations have been overtaken by events before they could be fully implemented and some recommendations are pending congressional action.

Does the agency provide the committee with feedback regarding actions taken to implement recommendations or advice offered?

Yes ☒ No ☐ Not Applicable ☐

Agency Feedback Comments

Agency feedback is provided through presentations at open public meetings, which are available to the public on line at <https://science.osti.gov/ascr/ascac/Meetings>

What other actions has the agency taken as a result of the committee's advice or recommendation?

Checked if Applies

Reorganized Priorities	<input checked="" type="checkbox"/>
Reallocated resources	<input type="checkbox"/>
Issued new regulation	<input type="checkbox"/>
Proposed legislation	<input type="checkbox"/>
Approved grants or other payments	<input type="checkbox"/>
Other	<input checked="" type="checkbox"/>

Action Comments

In FY 2024, the ASCAC made specific recommendations with regard to research facilities that are currently being folded into Office of Science and Department planning. Many previous recommendations from past reports and COVs are also in the process of being implemented.

Is the Committee engaged in the review of applications for grants?

No

Grant Review Comments

The Committee (ASCAC) does not review or award grants.

How is access provided to the information for the Committee's documentation?
