**20a. How does the Committee accomplish its purpose?**

The DBB shall provide independent advice and actionable recommendations to address critical matters and challenges to accelerate adoption of effective and efficient business processes and functions, organizational management constructs, and business and organizational cultural changes within the Department of Defense (DoD) in response to specific taskings from the Secretary of Defense or the Deputy Secretary of Defense. In response to the taskings, the DBB shall examine and advise on DoD executive management, innovative business processes, and governance from private, public, and academic sector perspectives. The DBB is specifically established to provide independent, strategic-level, private

sector and academic advice and counsel on enterprise-wide business management approaches and best practices for business operations and achieving National Defense goals. This advice will include topics such as executive management, corporate governance, business process improvement and innovation, global business services/shared services, audit and finance, supply chain & logistics, human resources/talent management, data/analytics management and use, real property management, energy and climate, technology, and organizational design and optimization.

**20b. How does the Committee balance its membership?**

The DBB is composed of no more than 20 members. In selecting potential candidates for the DBB, the DOD reviews the educations and professional credentials of individuals and bases its selection on this review and the subject matters expected to be handled by the DBB. Each member, based on his or her individual and professional experiences, provides his or her best judgement on matters before the DBB, and does so without representing any particular point of view and in a manner that is free from conflict of interest. Membership is not static and the Secretary of Defense or Deputy Secretary of Defense may change the membership based upon work assigned to the DBB by the Secretary of Defense and the Deputy Secretary of Defense.

**20c. How frequent and relevant are the Committee Meetings?**

The Board will meet at the call of the Board's Designated Federal Officer, in consultation with the Board's Chair. The estimated number of meetings of the Board is at least four per year.

**20d. Why can't the advice or information this committee provides be obtained elsewhere?**

The Board provides the Secretary of Defense with outside private sector perspectives and lessons learned on business management, culture, principles, and practices not otherwise available to the Secretary from within the Department. The Board's diverse, executive-level, global business skills and experience ensure its findings and advice are applicable and appropriate to the challenges faced by the Secretary. These private sector best business practices are highly applicable to large, complex enterprises such as the DoD, and have helped the Department achieve greater efficiency and effectiveness.

**20e. Why is it necessary to close and/or partially closed committee meetings?**

Meetings are not closed to the public unless the DoD determines the items on the planned agenda meet the closed-meeting provisions of 5 U.S.C. 552b(c). Pursuant to DoD policy closed meetings can only be authorized by the DoD Sponsor, Dr. Kathleen Hicks, Deputy Secretary of Defense and only after consultation with the DoD Office of General Counsel, Washington Headquarters Services and Pentagon Force Protection Agency.

**21. Remarks**

The Zero-Based Review Board concurs with the Board Sponsor that the DBB provides high value to the DoD and should resume. The DBB directly supports the Secretary's top priorities to defend the nation by providing independent advice and recommendations on critical matters concerning the Department.

## Narrative Description

The Defense Business Board published three studies in fiscal year 2023. A summary of study outputs (recommendations) is described below.

- FY23-01 – Recommendations for the Next Generation of Business Health Metrics. This study resulted in a set of recommended business health metrics for DoD leadership consideration to aid the Department as it continues to mature its metrics program to best measure the performance of its business

operations. The proposed metrics were influenced by those consistently utilized by leaders in the public and private sectors to assess organizational performance. • FY23-02–Recommendations to Improve IT User Experience within DoD. This study resulted in recommendations to better posture the DoD IT enterprise to address current and future gaps in the IT user experience of DoD stakeholders. • FY23-03–Assessment of the DOD: Building a Civilian Talent Pipeline. This study proposed actions for the Department to execute to develop effective talent pipelines to better compete for talent in the future workforce marketplace. The recommendations address ways to overcome current challenges including organizational impediments, brand message problems, recruiting shortfalls, and insufficient performance measures and data.
