20a. How does the Committee accomplish its purpose?

The Senior Advisor for Environmental Management directs the Board to provide input, advice, and recommendations on various programmatic issues. In FY 2023, the Board voted to submit recommendations on three topics: EM's hybrid work environment, employee recruitment and retention, and a technology development roadmap for Hanford's tank waste. In support of its mission, members held an open, public meetings on December 1, 2022 in New Orleans, LA and May 22, 2023 via teleconference.

20b. How does the Committee balance its membership?

Board members represent a variety of experience

and expertise, including that of regulatory agencies, business and industry, academia, professional associations, and state, local, and tribal governments. In addition, the Board seeks assistance and input from stakeholder representatives and technical consultants.

20c. How frequent and relevant are the Committee Meetings?

The full Board meets semi-annually or as deemed appropriate by the Senior Advisor. In FY 2023, EMAB held two public meetings. During full Board meetings, proposed recommendations to the Senior Advisor are discussed and agreed upon in an open, public forum. These meetings also provide an opportunity for private citizens and other interested audiences that are not members of the Board to understand issues relevant to the EM program.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

EMAB is the advisory body charged with providing advice and recommendations directly to the Senior Advisor on corporate issues related to the entire EM program. These issues include, but are not limited to: project management and oversight activities, cost/benefit analyses, program performance, human capital development, science and technology, and contracts and acquisition strategies.

20e. Why is it necessary to close and/or partially closed committee meetings?

N/A

21. Remarks

EMAB's mission is continuing in nature.

Improvements to health or safety

Trust in government	<input checked="" type="checkbox"/>
Major policy changes	<input type="checkbox"/>
Advance in scientific research	<input type="checkbox"/>
Effective grant making	<input type="checkbox"/>
Improved service delivery	<input checked="" type="checkbox"/>
Increased customer satisfaction	<input checked="" type="checkbox"/>
Implementation of laws or regulatory requirements	<input type="checkbox"/>
Other	<input type="checkbox"/>

Outcome Comments

Any significant program outcomes associated with the committee are contingent upon the scope of assigned activities and vary from year to year, based on the needs of the Senior Advisor. However, the Board consistently focuses on improving stakeholder relations, which in turn increases trust in government. Many of the Board's recommendations, which generally do not focus on direct technical applications, address the delivery of effective and timely clean-up that meets departmental, regulator, and stakeholder requirements.

What are the cost savings associated with this committee?

\$5,000,001 - \$10,000,000	<input type="checkbox"/>
Over \$10,000,000	<input type="checkbox"/>
Cost Savings Other	<input type="checkbox"/>

Cost Savings Comments

The cost impacts of the Board's recommendations are not immediately quantifiable because the focus of the committee generally lends itself to greater programmatic improvements rather than direct technical applications.

What is the approximate Number of recommendations produced by this committee for the life of the committee?

Number of Recommendations Comments

31 recommendations were made in FY 2023

What is the approximate Percentage of these recommendations that have been or will be Fully implemented by the agency?

78%

% of Recommendations Fully Implemented Comments

Recommendations are evaluated and considered by the EM senior staff in conjunction with the core mission of the EM program. An estimated 78% of the recommendations submitted over the life of the committee have been fully implemented. It should be noted that some recommendations are either financially or administratively impractical or impossible to fully implement.

What is the approximate Percentage of these recommendations that have been or will be Partially implemented by the agency?

18%

% of Recommendations Partially Implemented Comments

An attempt is always made to at least partially implement the Board's recommendations. However, it should be noted that some recommendations are either financially or administratively impractical or impossible to fully implement. An estimated 18% of the recommendations submitted over the life of the committee have been partially implemented.

Does the agency provide the committee with feedback regarding actions taken to implement recommendations or advice offered?
