18d. Total	\$445,760.00	\$463,889.00
19. Federal Staff Support Years (FTE)	1.25	1.25

20a. How does the Committee accomplish its purpose?

The Assistant Secretary for Environmental Management directs the Board to provide input, advice, and recommendations on various programmatic issues. In FY 2018, the Board focused on the topics of the CRESR Risk Review, Regulatory Reform, and innovation challenge options. In support of its mission, members met on May 16, 2018, and September 11, 2018, in open, public meetings to discuss and obtain information from appropriate senior EM managers. Board members also form subcommittees to research each topic and dialogue with the relevant EM program offices and officials. The information and insights gained from these efforts is used to develop formal reports and recommendations to the Assistant Secretary. All reports and recommendations are reviewed, discussed, and voted on by the full Board during EMAB's public meetings.

20b. How does the Committee balance its membership?

Board members represent a variety of experience and expertise, including that of regulatory agencies, business and industry, academia, professional associations, and state, local, and tribal governments. In addition, the Board seeks assistance and input from stakeholder representatives and technical consultants.

20c. How frequent and relevant are the Committee Meetings?

The full Board meets semi-annually or as deemed appropriate by the Assistant Secretary. Board subcommittees may meet more frequently, depending on their charge. In FY 2018, EMAB held two public meetings. During full Board meetings, proposed recommendations to the Assistant Secretary are discussed and agreed upon in an open, public forum. These meetings also provide an opportunity for private citizens and other interested audiences that are not members of the Board to discuss issues relevant to the EM program.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

EMAB is the advisory body charged with providing advice and recommendations directly to the Assistant Secretary on corporate issues related to the entire EM program. These issues include, but are not limited to: project management and oversight activities, cost/benefit analyses, program performance, human capital development, science and technology, and contracts and acquisition strategies.

20e. Why is it necessary to close and/or partially closed committee meetings?

N/A

21. Remarks

EMAB's mission is continuing in nature.

Designated Federal Officer

Jennifer A. McCloskey Project Manager Office of Intergovernmental & Stakeholder Programs

Number of Committee Members Listed: 13

Narrative Description

The Board provides information, advice, and recommendations to the Assistant Secretary for Environmental Management (EM) concerning issues affecting the EM program. These issues include, but are not limited to, project management and oversight, cost/benefit analyses, program performance, human capital development, science and technology, and contracts and acquisition strategies.

What are the most significant program outcomes associated with this committee?

Checked if Applies

Improvements to health or safety

Trust in government

- Major policy changes
- Advance in scientific research
- Effective grant making
- Improved service delivery
- Increased customer satisfaction
- Implementation of laws or regulatory requirements
- Other

Outcome Comments

Any significant program outcomes associated with the committee are contingent upon the scope of assigned activities and vary from year to year, based on the needs of the Assistant Secretary. However, the Board consistently focuses on improving stakeholder relations, which in turn increases trust in government. Many of the Board's recommendations, which generally do not focus on direct technical applications, address the delivery of effective and timely clean-up that meets departmental, regulator, and stakeholder requirements.

What are the cost savings associated with this committee?

Checked if Applies

- None
- Unable to Determine
- Under \$100,000
- \$100,000 - \$500,000
- \$500,001 - \$1,000,000
- \$1,000,001 - \$5,000,000
- \$5,000,001 - \$10,000,000
- Over \$10,000,000
- Cost Savings Other

Cost Savings Comments

The cost impacts of the Board's recommendations are not immediately quantifiable because the focus of the committee generally lends itself to greater programmatic improvements rather than direct technical applications.

What is the approximate Number of recommendations produced by this committee for the life of the committee?

190

Number of Recommendations Comments

EMAB passed two formal recommendations in 2018. The members are still in the process of developing recommendations related to their current work topics, which will continue into 2019.

What is the approximate Percentage of these recommendations that have been or will be Fully implemented by the agency?

80%

% of Recommendations Fully Implemented Comments

Recommendations are evaluated and considered by the EM senior staff in conjunction with the core mission of the EM program. An estimated 80% of the recommendations submitted over the life of the committee have been fully implemented. It should be noted that some recommendations are either financially or administratively impractical or impossible to fully implement.

What is the approximate Percentage of these recommendations that have been or will be Partially implemented by the agency?

16%

% of Recommendations Partially Implemented Comments

An attempt is always made to at least partially implement the Board's recommendations. However, it should be noted that some recommendations are either financially or administratively impractical or impossible to fully implement. An estimated 16% of the recommendations submitted over the life of the committee have been partially implemented.

Does the agency provide the committee with feedback regarding actions taken to implement recommendations or advice offered?

Yes No Not Applicable

Agency Feedback Comments

The Assistant Secretary for EM and/or her senior staff provide feedback through written responses to Board observations and recommendations, and attend EMAB public meetings to report on EM progress and various programmatic issues.

What other actions has the agency taken as a result of the committee's advice or recommendation?

Reorganized Priorities

Checked if Applies

- Reallocated resources
- Issued new regulation
- Proposed legislation
- Approved grants or other payments
- Other

Action Comments

N/A

Is the Committee engaged in the review of applications for grants?

No

Grant Review Comments

N/A

How is access provided to the information for the Committee's documentation?

Checked if Applies

- Contact DFO
- Online Agency Web Site
- Online Committee Web Site
- Online GSA FACA Web Site
- Publications
- Other

Access Comments
