**20a. How does the Committee accomplish its purpose?**

Meetings of the Board provide a forum for information exchange, open deliberation and public input into the formulation of the Board's advice and recommendations regarding park management. The Board provides a platform for public input on park issues. Unlike any other national park, NPS is a tenant to the land. The Board makes it possible for NPS to understand ongoing and sensitive private and village cultural land issues.

**20b. How does the Committee balance its membership?**

Membership is prescribed by the Board's enabling legislation, comprised of five members; three of whom are appointed by the Secretary from among nominees of the Governor, and two at the discretion of the Secretary.

**20c. How frequent and relevant are the Committee Meetings?**

The Board did not meet in FY 2018. Meetings are generally scheduled one to two times a year. Due to the special nature of the National Park of American Samoa--consisting of lands leased from villages, allowing for subsistence uses, and preserving the Samoan culture--the meetings provide opportunity for intercommunication between the park and the citizenry regarding interpretation and management of the park, and other matters.

**20d. Why can't the advice or information this committee provides be obtained elsewhere?**

This Board is currently inactive. The National Park of American Samoa Advisory Board was established by P. L. 100-571 to provide advice to the Secretary of the Interior regarding the management of the National Park of American Samoa. The park was established to preserve and protect the tropical forest and archaeological and cultural resources of American Samoa, and of associated reefs, to maintain the habitat of flying foxes, preserve the ecological balance of the Samoan tropical forest, and, consistent with the preservation of these resources, to provide for the enjoyment of the unique resources of the Samoan tropical forest by visitors from around the world. The Secretary and the Governor, or their designees, are to review the operation and management of the park at least every 10 years. The review is to include, but is not limited to, consideration of how the objectives of the park can better be achieved; the need for additional technical or other assistance; cooperative arrangements between the Government of American Samoa and the National Park Service in the interpretation and management of the park; and the desirability of extension of the lease arrangement.

**20e. Why is it necessary to close and/or partially closed committee meetings?**

All meetings are open.
