**20a. How does the Committee accomplish its purpose?**

The Idaho Falls District RAC provides representative citizen counsel and advice to the Secretary of the Interior through the Bureau of Land Management's designated Federal officer concerning the planning and management of the public land resources located within the geographic area of the BLM's Idaho Falls District. The RAC develops recommendations for the BLM regarding the preparation, amendment, and implementation of land use plans for the public lands and resources within the jurisdiction of the RAC. This requires the RAC to gather and analyze information, conduct studies and field examinations, hear public testimony, and ascertain facts relating to the issues.

**20b. How does the Committee balance its membership?**

The Idaho Falls Resource Advisory Council is composed of 15 members distributed in a balanced fashion among the following groups: Category I includes those holding Federal grazing permits or leases, interests associated with transportation or rights-of-way, developed outdoor recreation, OHV users, or commercial recreation activities, commercial timber industry, or energy and mineral development; Category II includes nationally or regionally recognized environmental organizations, dispersed recreation activities, archaeological and historical interests, or nationally or regionally recognized wild horse and burro interest groups; Category III includes state, county, or locally elected office-holders, employee of a State agency responsible for the management of natural resources, Indian Tribes within or adjacent to the area for which the RAC is organized, are employed as academicians in natural resource management or the natural sciences, or represent the public-at-large.

**20c. How frequent and relevant are the Committee Meetings?**
