The National Geospatial Advisory Committee provides advice and recommendations to the Federal Geographic Data Committee related to management of federal and national geospatial programs, the development of the National Spatial Data Infrastructure (NSDI), and the implementation of the Geospatial Data Act (GDA) of 2018 and the Office of Management and Budget Circular A-16. The NGAC reviews and comments on geospatial policy and management issues and provides a forum to convey views representative of non-federal stakeholders in the geospatial community. The NGAC is one of the primary ways that the FGDC collaborates with its broad network of partners. Agenda Topics: FGDC Update; Landsat Advisory Group; 3D Elevation Program; GDA; NSDI; GeoPlatform; Standards and Data Access; and Public Comment

**20a. How does the Committee accomplish its purpose?**

Federal geospatial programs are highly dependent upon partnerships and coordination with external groups, including State, local and Tribal governments, and non-profit and private sector partners. The NGAC plays an important role in providing a forum to convey views representative of non-Federal partners in the geospatial community and reviewing and commenting upon geospatial policy and management issues.

**20b. How does the Committee balance its membership?**

FGDC has worked to ensure a balanced committee membership that reflects the variety of viewpoints within the geospatial community. The Committee is composed of up to 30 representatives or special Government employees who are selected to generally achieve a balanced representation of the viewpoints of the various stakeholders involved in national geospatial activities. Selection of Committee members includes consideration of geographic balance. The Committee membership includes balanced representation from among, but not limited to, the following stakeholder groups involved in the geospatial community: - Federal Government - State government - County government - Regional government - City/Municipal government - Tribal government - Private sector - User industries - Professional associations - Non-profit organizations - Academia.

**20c. How frequent and relevant are the Committee Meetings?**

The NGAC meets 2-4 times per year. In FY 2024, the NGAC had two public meetings. The meetings have been well-attended, substantive, and productive.

**20d. Why can't the advice or information this committee provides be obtained elsewhere?**

Federal geospatial programs are highly dependent upon partnerships and coordination with external groups, including State, local and Tribal governments, and non-profit and private sector partners. The NGAC plays an important role in providing a forum to convey views representative of non-Federal partners in the geospatial community and reviewing and commenting upon geospatial policy and management issues.

**20e. Why is it necessary to close and/or partially closed committee meetings?**

N/A

**21. Remarks**

The Committee held two public meetings in FY 2024.

**Designated Federal Officer**

Ken Shaffer Executive Director, Federal Geographic Data Committee

## Number of Committee Members Listed: 42

### Narrative Description

The Committee supports FGDC agencies' missions by providing advice and recommendations related to management of Federal and national geospatial programs, the development of the National Spatial Data Infrastructure (NSDI), and the implementation of Office of Management and Budget (OMB) Circular A-16 and the Geospatial Data Act. The Committee reviews and comments upon geospatial policy and management issues and provides a forum to convey views representative of non-Federal stakeholders in the geospatial community.

### Cost Savings Comments

The NGAC primarily provides policy advice on the effective management and coordination of national geospatial programs.

### What is the approximate Number of recommendations produced by this committee for the life of the committee?

105

### Number of Recommendations Comments

The Committee made 4 recommendations in FY 2024: (1) NGAC resolution endorsing the USGS “The 3D National Topography Model Call for Action Part 2: Next Generation of the 3D Elevation Program” (2) NGAC Paper: “NGAC Comments on the 2030 Earth Observation Data Challenge - Interagency Operational Efficiencies” (3) NGAC Comments on FY 2023 Summary of GDA Annual Reports (4) NGAC resolution on OMB Assistance In addition to formal recommendations, the NGAC has also provided continuing feedback and comment on the development of a strategic plan for the National Spatial Data Infrastructure, which is required under the Geospatial Data Act of 2018.

**What is the approximate Percentage of these recommendations that have been or will be Fully implemented by the agency?**

24%

**% of Recommendations Fully Implemented Comments**

Approximately 24% of NGAC recommendations (25 of 105) have been or are expected to be fully implemented.

**What is the approximate Percentage of these recommendations that have been or will be Partially implemented by the agency?**

76%

**% of Recommendations Partially Implemented Comments**

Approximately 76% of NGAC recommendations (80 of 105) have been or are expected to be partially implemented.

**Does the agency provide the committee with feedback regarding actions taken to implement recommendations or advice offered?**

Yes ☒ No ☐ Not Applicable ☐

**Agency Feedback Comments**

Feedback on recommendations is provided at subsequent meetings of the committee. The FGDC also provides written feedback on NGAC recommendations.
