20a. How does the Committee accomplish its purpose?

The Commission is an advisory group. Federal law and regulation provide the opportunity for continued subsistence uses, including hunting, within the Denali National Park. The Subsistence Resource Commission for Denali National Park is

a forum that promotes effective communication and mutual understanding of subsistence uses and related cultural resources. The Commission consults with every appropriate local advisory committee and regional council for comment and input on draft hunting plan recommendations. In addition to the advisory committee and regional council consultation process directed by P.L. 96-847 (the Alaska National Interest Lands Conservation Act), the Commission is required to hold public meetings in all areas affected by the subsistence hunting program.

20b. How does the Committee balance its membership?

Membership, as prescribed by the Commission's enabling legislation, consists of nine members as follows: (a) three members appointed by the Secretary of the Interior; (b) three members appointed by the Governor of Alaska; and (c) three members appointed by the regional council, as established by the Secretary or the State pursuant to section 805 of P.L. 96-487. The members include a range of individuals having personal knowledge of the region's subsistence conditions, and having an interest in Federal subsistence management.

20c. How frequent and relevant are the Committee Meetings?

Meetings are generally held twice a year, or as often as circumstances require. Commission recommendations are vitally important on matters relating to the taking of wildlife within the park, and are the foundation for the development and review of the subsistence hunting program.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

The Subsistence Resource Commission for Denali National Park has been established by the Congress to devise and recommend to the Secretary of the Interior and the Governor of Alaska a program for subsistence hunting within Denali National Park. The Commission's unique insight on local customary and traditional patterns of subsistence use within the park has been important in developing workable subsistence hunting plan recommendations. The Commission's recommendations will help the NPS to ensure the continuation of the opportunity for local rural residents to engage in the subsistence use of resources in Denali National Park and Preserve. The NPS has adopted the following mission statement to guide its activities.

Subsistence will be managed as a legislated use consistent with the provisions of ANILCA (Section 202(3)), the Organic Act of 1916, and Denali's enabling legislation to:

- protect the opportunity for qualified local rural residents to continue traditional subsistence activities;
- recognize that subsistence ways of life differ from region to region and are continuing to evolve, and where appropriate, park management practices may reflect regional diversity and evolution;
- promote local involvement and participation in processes associated with subsistence management;
- ensure that management practices involving the utilization of public lands adequately consider the potential for restriction of subsistence uses and impacts upon subsistence resources;
- ensure that management of park resources is consistent with the conservation of unimpaired ecosystems and natural and healthy populations of fish and wildlife, incorporating scientific data and principles with traditional knowledge and cultural values;
- and
- promote effective communication and mutual understanding of subsistence uses and related

cultural and social values, and park purposes and protection, between the NPS, subsistence users, the State of Alaska and the public.

20e. Why is it necessary to close and/or partially closed committee meetings?

All meetings are open.

21. Remarks

The Denali Subsistence Resource Commission met twice during fiscal year 2022. The meetings were held on March 2, 2022 via teleconference and on August 24, 2022 in person in Healy, Alaska. Quorum was not established at the March meeting and no recommendations made. The Commission reviewed draft individual C&T application and draft NPS Wildlife Proposed Rule but did not have enough information at the time of the meeting to make a recommendation and scheduled a follow up meeting for November 8, 2022 to make informed recommendation at that time.
