20a. How does the Committee accomplish its purpose?

The scope and objectives of the Committee are to provide advice and recommendations on initiatives to expand access to banking services for underserved populations. The Committee will review various issues that may include, but not be limited to, basic retail financial services such as low-cost, sustainable transaction accounts, savings accounts, small dollar lending, prepaid cards, money orders, remittances, and other services to promote asset accumulation and financial stability. The Committee, as appropriate, offers advice and recommendations regarding the

issues considered through discussions and appropriate motions at open committee meetings.

20b. How does the Committee balance its membership?

Members will be appointed who can effectively represent the varied and diverse interests affected by the issues to be considered. Members will represent a cross-section of interests from the federal government, banking industry, state regulatory authorities, consumer or public advocacy organizations, community-based groups, academia, philanthropic organizations, as well as others impacted by banking-related practices.

20c. How frequent and relevant are the Committee Meetings?

Estimated Number of Meetings per Year – At least 2.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

The Committee would be utilized to gather information and data on those issues impacting the access to and participation in the banking system by individuals from underserved populations which in turn will help the FDIC to better identify and prioritize issues of concern, and if necessary, to develop and implement strategies and methods to improve banking access and offerings to underserved populations. Information would be gathered that would assist the agency in evaluating its effectiveness in improving the delivery of financial services to the underserved communities and in dealing with the entities it regulates, including the costs and benefits associated with existing regulations and the efficiency of supervisory methods currently

employed. The Committee may explore policy options for changes in statutes, regulations, or supervisory practices or procedures that will better secure the public policy goals of delivering financial services more efficiently and at less cost if possible to a broader spectrum of individuals while maintaining a safe, competitive and innovative banking system.

20e. Why is it necessary to close and/or partially closed committee meetings?
