20a. How does the Committee accomplish its purpose?

The Advisory Committee will provide advice and comments on a broad range of issues regarding the resolution of systemically important financial companies (“covered companies”) pursuant to the Dodd-Frank Wall Street Reform and Consumer Protection Act. Issues to be discussed by the Committee include the effects on financial stability

and economic conditions resulting from a covered company's failure, the effects on markets and stakeholders of a covered company, market understanding of the structures and tools available to the FDIC to facilitate an orderly resolution of a covered company, the application of such tools to nonbank financial entities, international coordination of planning and preparation for the resolution of internationally active covered companies, and harmonization of resolution regimes across international boundaries. The Committee, as appropriate, may offer advice and recommendations after it reviews the various issues under consideration.

20b. How does the Committee balance its membership?

Members will effectively represent the varied and diverse interests affected by the issues to be considered. Given the complexities associated with the structure of covered companies, the FDIC will seek to ensure that representatives of industries and sectors most likely to be impacted by, or play a role in, the resolution of covered companies participate in the Committee's activities. Toward that end, members of the Committee may include financial market participants and professionals with relevant experience managing large, complex firms, investors, bankruptcy professionals, representatives from the audit, accounting, credit rating, and legal professions, as well as academic and other relevant experts.

20c. How frequent and relevant are the Committee Meetings?

Estimated Number of Meetings per Year - 1.

20d. Why can't the advice or information this

committee provides be obtained elsewhere?

The Advisory Committee will be utilized to gather information and promote highly technical, specialized and focused discussions about the FDIC's resolution policy development and a variety of current and emerging issues that could affect the resolution of covered companies. This information will help the FDIC to identify and prioritize issues and develop effective strategies and policies in implementing its systemic resolution authority.

20e. Why is it necessary to close and/or partially closed committee meetings?

N/A

Narrative Description

The Advisory Committee supports the FDIC through its advice and commentary on a broad range of issues regarding the resolution of systemically important financial institutions pursuant to the Dodd-Frank Act. The Advisory Committee is also intended to facilitate discussion on how the FDIC's systemic resolution authority, and its implementation, may impact regulated entities and other stakeholders potentially affected by the resolution process. The FDIC continues to refine its planning in order to facilitate the effective resolution of covered financial companies under the Dodd-Frank Act, should that ever be necessary. In undertaking these efforts, it is particularly important that the FDIC understands the interests and concerns of, and receives input from, a wide spectrum of market participants, professionals, and other stakeholders about the interaction of these planning and regulatory efforts with the financial market and financial companies.
