18e. Total Costs	\$117,008.16	\$131,103.00
19. Federal Staff Support Years (FTE)	1.50	1.50

20a. How does the Committee accomplish its purpose?

The National Drinking Water Advisory Council (NDWAC) is a federal advisory committee that

supports EPA in performing the Agency's duties and responsibilities related to the national drinking water program. The NDWAC was created on December 16, 1974, through a provision in the Safe Drinking Water Act (SDWA) of 1974. The NDWAC meets to discuss current issues in EPA's drinking water program and also advises, consults with, and makes recommendations to EPA. This includes consultations as required by the SDWA on certain rulemakings.

20b. How does the Committee balance its membership?

The NDWAC is authorized under the SDWA, which includes a provision on the composition of the membership of the council. The NDWAC is to have five (5) members from the general public, five (5) members from water interest groups and organizations and five (5) members from state and local agencies. Included in the statute is a requirement that two (2) of the 15 members must be associated with small, rural drinking water systems. EPA seeks to ensure geographic diversity.

20c. How frequent and relevant are the Committee Meetings?

Since the enactment of the 1996 SDWA Amendments, the NDWAC has provided indispensable input into EPA's standard setting, regulatory development, and program implementation activities mandated by the SDWA, as amended. As EPA carries out these statutory mandates, the agency works with the NDWAC to develop and shape future efforts that will ensure the nation's public health protection through safe drinking water. The NDWAC has met one time in FY25.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

Early involvement of the NDWAC provides an excellent forum for EPA to discuss and receive stakeholder input on policy, regulatory development, and program implementation issues/concerns. Moreover, the NDWAC offers an opportunity for fostering consensus advice and recommendations from a balanced and diverse group of experts in the drinking water community who may not reach agreement without working together within the structure of the NDWAC. To reach an appropriate position on difficult and controversial issues, the NDWAC organizes meetings so that all sides of an issue/concern are taken into consideration and recommendations reflect consensus to the extent possible.

20e. Why is it necessary to close and/or partially closed committee meetings?

No meetings were closed or partially closed.

21. Remarks

All members are Tier 1 (parent committee members). There are no Tier 2 (subcommittee) members serving.

Narrative Description

The National Drinking Water Advisory Council (NDWAC or Council) is a federal advisory committee that supports the EPA in performing its duties and responsibilities related to the national drinking water program. The Council was created on December 16, 1974, through a provision in the Safe Drinking Water Act of 1974. NDWAC provides advice, information, and recommendations to the EPA Administrator on matters related to activities, functions,

policies, and regulations under the Safe Drinking Water Act.

What are the most significant program outcomes associated with this committee?

	Checked if Applies
Improvements to health or safety	<input checked="" type="checkbox"/>
Trust in government	<input type="checkbox"/>
Major policy changes	<input type="checkbox"/>
Advance in scientific research	<input type="checkbox"/>
Effective grant making	<input type="checkbox"/>
Improved service delivery	<input type="checkbox"/>
Increased customer satisfaction	<input type="checkbox"/>
Implementation of laws or regulatory requirements	<input checked="" type="checkbox"/>
Other	<input type="checkbox"/>

Outcome Comments

What are the cost savings associated with this committee?

	Checked if Applies
None	<input type="checkbox"/>
Unable to Determine	<input checked="" type="checkbox"/>
Under \$100,000	<input type="checkbox"/>
\$100,000 - \$500,000	<input type="checkbox"/>
\$500,001 - \$1,000,000	<input type="checkbox"/>
\$1,000,001 - \$5,000,000	<input type="checkbox"/>
\$5,000,001 - \$10,000,000	<input type="checkbox"/>
Over \$10,000,000	<input type="checkbox"/>
Cost Savings Other	<input type="checkbox"/>

Cost Savings Comments

What is the approximate Number of recommendations produced by this committee for the life of the committee?

128

Number of Recommendations Comments

NDWAC provided input and recommendations to EPA on the implementation of the national drinking water program. EPA staff consulted with NDWAC on key issues, including most recently the PFAS National Primary Drinking Water Regulation (NPDWR), the Consumer Confidence Report (CCR) Rule Revisions, the Lead and Copper Rule Improvements (LCRI), and the Microbial and Disinfection Byproduct (MDBP) Rule Revisions. The meeting was focused on discussing the proposed perchlorate regulation. EPA is currently in the proposal stage of the regulation with a requirement to propose the rule by November 2025. The agency is seeking input from the council to inform the development of the proposed rule.

What is the approximate Percentage of these recommendations that have been or will be Fully implemented by the agency?

0%

% of Recommendations Fully Implemented Comments

Realistically, we are unable to provide a real number over the 35-year history of the Council. EPA considers all recommendations made and implements them as possible. However, in some cases the administration may disagree with the council and/or the regulatory process guides the final action. Additionally, EPA may not be able to respond due to resource constraints.

What is the approximate Percentage of these recommendations that have been or will be Partially implemented by the agency?

0%

% of Recommendations Partially Implemented Comments

N/A

Does the agency provide the committee with feedback regarding actions taken to implement recommendations or advice offered?

Yes ☒ No ☐ Not Applicable ☐

Agency Feedback Comments

EPA provides a written response to the NDWAC's recommendations.

What other actions has the agency taken as a result of the committee's advice or recommendation?

Checked if Applies

Reorganized Priorities	<input type="checkbox"/>
Reallocated resources	<input type="checkbox"/>
Issued new regulation	<input type="checkbox"/>
Proposed legislation	<input type="checkbox"/>
Approved grants or other payments	<input type="checkbox"/>
Other	<input type="checkbox"/>
