20a. How does the Committee accomplish its purpose?

Section 492 of the PHS Act states that The

Secretary...shall by regulation require appropriate technical and scientific peer review of -- (A) applications...; and (B) biomedical and behavioral research and development contracts... This committee is composed of recognized biomedical and/or behavioral research authorities who represent the forefront of research and technical knowledge and who provide first-level merit review of highly scientific and technical research grant applications in the fields of diabetes, endocrinology, metabolic diseases, digestive diseases, nutrition, kidney, urologic and hematologic diseases. During this reporting period the committee reviewed 474 grant applications requesting \$332,114,880.00

20b. How does the Committee balance its membership?

The members of this committee are authorities knowledgeable in the fields of diabetes, endocrinology, metabolic diseases, digestive diseases, nutrition, and kidney, urologic and hematologic diseases.

20c. How frequent and relevant are the Committee Meetings?

The National Institute of Diabetes and Digestive and Kidney Diseases Initial Review Group held nine meetings during this reporting period.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

This committee is composed of recognized biomedical and/or behavioral research authorities who represent the forefront of research and technical knowledge and who provide first-level merit review of highly scientific and technical research grant applications. These evaluations and recommendations cannot be obtained from

other sources because the specialized, complex nature of the applications and proposals requires a unique balance and breadth of expertise not available on the NIH staff or from other established sources.

20e. Why is it necessary to close and/or partially closed committee meetings?

The meetings of the National Institute of Diabetes and Digestive and Kidney Diseases Initial Review Group were closed to the public for the review of grant applications. Sections 552b(c)(4) and 552b(c)(6) of the Government in the Sunshine Act permit the closing of meetings where discussion could reveal confidential trade secrets or commercial property such as patentable material and personal information, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

21. Remarks

The positions of Designated Federal Official and Committee Decision maker are both held by the Chief of Review based on assignment of duties in the Institute. Reports: This committee did not produce any public reports during the fiscal year. URL: This committee does not have a website. Occupation/Affiliation: Due to the larger number of members serving on this committee, NIH staff are unable to provide additional information on Occupation or Affiliation. Additional information on an individual's affiliation may be obtained by contacting the designated federal officer listed in this report. Zip Codes: Due to the large number of members associated with this committee, NIH staff are unable to provide individual zip codes for all members. Current individual meeting rosters, including zip codes are available on line at <https://public.era.nih.gov/pubroster/>. The following

members were reappointed through 2024: Linda Baker, Judith Blaine, Hans-Christian Reinecker, Brian Gulbransen, and Yang Dai. Laurie Steiner's role changed to Chair. The following members were excluded from the 2021 ACR: Matthew Ciorba, Peter Dempsey, Deborah Ellis, Adrienne Juarascio, Shehzad Sheikh, Yang Dai and Lauren Shomaker.

Narrative Description

The goal of NIH research is to acquire new knowledge to help prevent, detect, diagnose, and treat disease and disability, from the rarest genetic disorder to the common cold. The NIH mission is to uncover new knowledge that will lead to better health for everyone. NIH works toward that mission by supporting the research of non-Federal scientists in universities, medical schools, hospitals, and research institutions throughout the country and abroad. Section 492 of the PHS Act states that The Secretary...shall by regulation require appropriate technical and scientific peer review of -(A) applications...; and (B) biomedical and behavioral research and development contracts... This committee is composed of recognized biomedical and/or behavioral research authorities who represent the forefront of research and technical knowledge and who provide first-level merit review of highly scientific and technical research grant applications in the fields of diabetes, endocrinology, metabolic diseases, digestive diseases, nutrition, kidney, urologic and hematologic diseases.

% of Recommendations Fully Implemented Comments

NIH Peer Review Committees are involved in the initial review of research grant applications. The NIH dual peer review system is mandated by statute in accordance with section 492 of the Public Health Service Act. The charge to this committee is to determine scientific and technical merit of the individual grants or contracts. These recommendations are forwarded to Federal officials who generally accept the committee's recommendations and favorable applications are then forwarded for the second level of review performed by Institute and Center (IC) National Advisory Councils or Boards. Only applications that are favorably recommended by both the initial peer review committee and the Advisory Council may be recommended for funding.

Action Comments

An action of approved or recommended for grants receiving review by this council does not infer that the grant will be or has been funded. Research grant applications submitted to NIH must go through a two-step review process that includes initial peer review for scientific and technical merit and a second step of review for a number of other considerations. These include alignment with NIH's funding principles, review of the project budget, assessment of the applicant's management systems, determination of applicant eligibility, and compliance with public policy requirements. After all of these steps have been completed, NIH officials make funding decisions on individual grant applications.

Is the Committee engaged in the review of applications for grants?

Yes
