18d. Total	\$118,429.00	\$141,440.00
19. Federal Staff Support Years (FTE)	0.70	0.70

20a. How does the Committee accomplish its purpose?

This Council is composed of both scientific and public members who provide the second level of peer review; advise on policy development, program implementation and evaluation; and

research needs and opportunities of the Institute. The Council reviewed 618 applications requesting \$196,308,173.

20b. How does the Committee balance its membership?

The National Advisory Council for Nursing Research will consist of not more than 18 members with research interests and responsibilities paralleling those of the National Institute of Nursing Research. Two-thirds of the appointed members will be selected from among the leading representatives of the health and scientific disciplines (including not less than 2 individuals in the fields of public health and the behavioral or social sciences) relevant to the activities of the NINR, and include at least seven professional nurses who are recognized experts in the area of clinical practice, education or research. One-third of the appointed members will be appointed by the Secretary from the general public and will include leaders in the fields of public policy, law, health policy, economics, and management.

20c. How frequent and relevant are the Committee Meetings?

Meetings are held not less than three times each fiscal year. The National Advisory Council for Nursing Research met three times in the 2022 fiscal year. The National Advisory Council for Nursing Research provides advice on a continuing basis on the type of scientific research programs that should be supported and on how to carry out the designated mission and responsibilities of the Institute. It also provides ongoing review of the relevance and effectiveness of the existing programs.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

The National Advisory Council for Nursing Research is composed of both scientific and public members who provide the second level of review for research grant applications; advise on policy development, program implementation and evaluation; and research needs and opportunities of the Institute. The quality, scope, and balance of advice from this Council cannot be obtained from NIH staff or from other established sources because the membership of the Council is constituted to meet the specific requirements of the mandated mission of the Council and of the Institute.

20e. Why is it necessary to close and/or partially closed committee meetings?

The meetings of the National Advisory Council for Nursing Research were partially-closed to the public for the review of grant applications. Sections 552b(c)(4) and 552b(c)(6) of the Government in the Sunshine Act permit the closing of meetings where discussion could reveal confidential trade secrets or commercial property such as patentable material and personal information, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

21. Remarks

Other: National Scientific and Advisory.
Designated Federal Official/Executive Secretary: Rebecca Rasooly served as the Designated Federal Official/Executive Secretary of the National Advisory Council for Nursing Research from October 2021 through April 2022; Dr. Elizabeth Tarlov took her place and has been serving as the Designated Federal

Official/Executive Secretary of the National Advisory Council for Nursing Research since of April 2022. Reports: This committee did not produce any reports during this fiscal year. Designated Federal Official/Committee Decision Maker: The Designated Federal Official and Committee Decision Maker positions are held by the same individual based on the assignment of duties in this Institute. Max Number of Members: The Charter was renewed May 30, 2022. Membership was amended from "The Council will consist of 15 members..." to "The Council will consist of not more than 18 members...". The term end date for Dr. Francis Collins was changed from 12/31/2021 to 12/19/2021 as it accurately reflects his official date of departure from the NIH.

Designated Federal Officer

Elizabeth Tarlov Director, Division of Extramural Science Programs, National Institute of Nursing Research

Committee Members	Start	End	Occupation	Member Designation
Atkins, Robert	02/14/2022	01/31/2025	National Program Director and Associate Professor, Rutgers (SGE) University-Camden Member Secretary, U.S. Department of Health and Human Services	Special Government Employee

Zenk, Shannon	01/01/2021	01/01/2023	Director of the National Institute of Nursing Research	Ex Officio Member

Number of Committee Members Listed: 18

Narrative Description

The goal of NIH research is to acquire new knowledge to help prevent, detect, diagnose and treat disease and disability, from the rarest genetic disorder to the common cold. The NIH mission is to

uncover new knowledge that will lead to better health for everyone. NIH works toward that mission by: conducting research in its own laboratories; supporting the research of non-Federal scientists in universities, medical schools, hospitals, and research institutions throughout the country and abroad; helping in the training of research investigators; and fostering communication of medical and health sciences information. Section 492 of the Public Health Service Act states that The Secretary...shall by regulation, require appropriate technical and scientific peer review of (A) applications...;(B)...biomedical and behavioral research and development contracts... The National Advisory Council for Nursing Research provides second level peer review, makes recommendations for support of grants, contract proposals, and cooperative agreements; advises on policy development, program implementation and evaluation; and research needs of the National Institute of Nursing Research.

What are the most significant program outcomes associated with this committee?

Checked if
Applies

- Improvements to health or safety
- Trust in government
- Major policy changes
- Advance in scientific research
- Effective grant making
- Improved service delivery
- Increased customer satisfaction
- Implementation of laws or regulatory requirements
- Other

Outcome Comments

NIH supported basic and clinical research accomplishments often take many years to unfold into new diagnostic tests and new ways to treat and prevent diseases.

What are the cost savings associated with this committee?

Checked if Applies

- None
- Unable to Determine
- Under \$100,000
- \$100,000 - \$500,000
- \$500,001 - \$1,000,000
- \$1,000,001 - \$5,000,000
- \$5,000,001 - \$10,000,000
- Over \$10,000,000
- Cost Savings Other

Cost Savings Comments

NIH supported basic and clinical research accomplishments often take many years to unfold into new diagnostic tests and new ways to treat and prevent diseases.

What is the approximate Number of recommendations produced by this committee for the life of the committee?

26,369

Number of Recommendations Comments

Recommendations made by the Committee include grant reviews. The Committee recommended 618 grants.

What is the approximate Percentage of these recommendations that have been or will be Fully implemented by the agency?

0%

% of Recommendations Fully Implemented Comments

Information on the research funded by NIH is available through the RePORT (Research Portfolio Online Reporting Tool) website. RePORT provides access to reports, data, and analyses of NIH research activities that advance the mission of the NIH, including information on NIH expenditures, strategic plans, reports on NIH funding, and reports on the organizations and people involved in NIH research and research training. The RePORT website is located at <http://report.nih.gov>. Due to the complexity of the recommendations made by this committee on policy and program areas, staff is unable to determine which recommendations have been fully or partially implemented solely in response to this committee's activities.

What is the approximate Percentage of these recommendations that have been or will be Partially implemented by the agency?

0%

% of Recommendations Partially Implemented Comments

Information on the research funded by NIH is available through the RePORT (Research Portfolio Online Reporting Tool) website. RePORT provides access to reports, data, and analyses of NIH research activities that advance the mission of the NIH, including information on NIH expenditures, strategic plans, reports on NIH funding, and reports on the organizations and people involved in NIH research and research training. The RePORT website is located at <http://report.nih.gov>. Due to the complexity of the recommendations made by this committee on policy and program areas, staff is unable to determine which recommendations have been fully or partially implemented solely in response to this committee's activities.

Does the agency provide the committee with feedback regarding actions taken to implement recommendations or advice offered?

Yes No Not Applicable

Agency Feedback Comments

Information is provided to the public at the open session of each Council meeting through reports and the Director's update. The public can view information related to the Council through the council's official website.

What other actions has the agency taken as a result of the committee's advice or recommendation?

	Checked if Applies
Reorganized Priorities	<input type="checkbox"/>
Reallocated resources	<input type="checkbox"/>
Issued new regulation	<input type="checkbox"/>
Proposed legislation	<input type="checkbox"/>
Approved grants or other payments	<input checked="" type="checkbox"/>
Other	<input type="checkbox"/>

Action Comments

An action of 'approved' or 'recommended' for grants receiving review by this Council does not infer that the grant will be or has been funded. Research grant applications submitted to NIH must go through a two-step review process that includes the initial peer review for scientific and technical merit and a second step of review and approval by a National Advisory Council that includes program relevance. In addition, prior to an award or funding being made, NIH staff must conduct an administrative review for a number of

other considerations. These include alignment with NIH's funding principles, review of the project budget, assessment of the applicant's management systems, determination of applicant eligibility, and compliance with public policy requirements. After all these steps have been completed, NIH officials make funding decisions on individual grant applications.

Is the Committee engaged in the review of applications for grants?

Yes

What is the estimated Number of grants reviewed for approval 618

What is the estimated Number of grants recommended for approval 618

What is the estimated Dollar Value of grants recommended for approval \$196,308,173

Grant Review Comments

January 2022: The total dollar value of grants recommended for approval was \$100,387,959. May 2022: The total dollar value of grants recommended for approval was \$39,331,335. September 2022: The total dollar value of grants recommended for approval was \$56,588,879.

How is access provided to the information for the Committee's documentation?
