20a. How does the Committee accomplish its purpose?

This Board assesses the quality of the Clinical Center's intramural research programs, evaluates the productivity and performance of our research physicians and scientists, and reviews necessary administrative functions for the operation of a highly effective intramural research program. The Board is composed of scientific and medical experts, all nationally recognized in their field of study and clinical practice. The Board provides

indispensable evaluation and advisory functions in the management of the Clinical Center's intramural research programs.

20b. How does the Committee balance its membership?

The Board consists of outstanding authorities knowledgeable in the basic and clinical medical sciences related to the departments of the Clinical Center. The advisory role of the Board is scientific and substantive. The Board, through periodic visits to the laboratories, assesses the research in progress and evaluates productivity and performance of staff scientists.

20c. How frequent and relevant are the Committee Meetings?

The Board generally meets twice annually to evaluate one or more Clinical Center Departments during each visit and for the peer review of research activities on a rotating basis as required by the PHS Act. The Board met one time during FY24 to review the research programs of the Department of Pediatrics and the Emerging Pathogens Section of the Critical Care Medicine Department. - March 25-26, 2024: Agenda: Review of the Department of Pediatrics and Critical Care Medicine Department, Emerging Pathogens Section

20d. Why can't the advice or information this committee provides be obtained elsewhere?

This Board is composed of recognized biomedical and/or behavioral research authorities from outside the NIH in order to secure unbiased and objective evaluation of intramural research programs. Their recommendations are invaluable because the complex nature of research in each Clinical Center Department requires a unique

balance and breadth of expertise not readily available without bias from within the NIH staff or from other U.S. Government resources.

20e. Why is it necessary to close and/or partially closed committee meetings?

The meetings of the Board were closed for the review, discussion, and evaluation of individual programs and projects conducted by the Clinical Center, including consideration of personnel qualifications and performance, the competence of individual investigators, and similar items, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy. Section 552b(c)(6) of the Government in the Sunshine Act permits the closing of meetings where discussion could reveal personal information, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

21. Remarks

Committee Function: Other - Peer Review of intramural research laboratories and personnel.

The DFO and Committee Decision Maker positions are held by the same individual based on assigned duties within the Clinical Center.

Member(s): In FY 2024, Chairperson Dr. Kari Nadeau's term ended 6/30/2024. Dr. Dolores Njoku, a current member, was reassigned as the BSC Chairperson for the remainder of her term, ending 6/30/2026. Reports: This committee did not produce any reports during this fiscal year.

Narrative Description

NIH's mission is to seek fundamental knowledge about the nature and behavior of living systems and the application of that knowledge to enhance health, lengthen life, and reduce illness and disability. NIH works toward that mission by conducting research in its own laboratories. The mission of the Board of Scientific Counselors is to assess the quality of the Institute's intramural research programs and to evaluate the productivity and performance of intramural scientists in accordance with Section 492(b) of the PHS Act, as amended and shall also, as requested by the Director, NIH, undertake peer review of extramural funding applications as required by section 492(a) of the Public Health Service Act, as amended.

Cost Savings Comments

NIH supported basic and clinical research accomplishments often take many years to unfold into new diagnostic tests and new ways to treat and prevent diseases.

What is the approximate Number of recommendations produced by this committee for the life of the committee?

Number of Recommendations Comments

Five recommendations were made in FY24. The significant ones are then subsequently addressed by the CC Scientific Director. Also, during these departmental BSC reviews, members of the Scientific Director's team sought advice about improving the research programs of the investigators forward via planning personnel and space allocations, and projecting research budgets for the next several years.

What is the approximate Percentage of these recommendations that have been or will be Fully implemented by the agency?

0%

% of Recommendations Fully Implemented Comments

Information on the research funded by NIH is available through the RePORT (Research Portfolio Online Reporting Tool) website. RePORT provides access to reports, data, and analyses of NIH research activities that advance the mission of the NIH, including information on NIH expenditures, strategic plans, reports on NIH funding, and reports on the organization and people involved in NIH research and research training. The RePORT website is located at <http://report.nih.gov>.
