20a. How does the Committee accomplish its purpose?

In FY2024 the Board reviewed several laboratories/branches, sections/units, cores, and investigators in the NIMH intramural program. At the January-February 2024 BSC Review Meeting, the Section on Integrative Neuroimaging, Section on Psychosis and Cognitive Studies, Unit on Functional Neural Circuits (Tenure Review), Functional MRI Core, Machine Learning Team, Data Science and Sharing Team and the Magnetic Resonance Spectroscopy Core were reviewed. At the June 2024 BSC Review Meeting, the Systems Neuroscience Imaging Resource, the Unit on

Neurons, Circuits and Behavior (Tenure Review), Noninvasive Neuromodulation Unit, Neurophysiology Imaging Core and the Scientific and Statistical Computing Core were reviewed. At the September 2024 BSC Review Meeting, the Unit on Neuroscience and Novel Therapeutics (Tenure Review), Section on Neural Function, Section on Critical Brain Dynamics, Section on Neuroplasticity, Rodent Behavior Core, Section on Behavioral Neuroscience, and Senior Investigator Dr. Charles Gerfen were reviewed. The Board continues to provide evaluation and advice for the management of the research efforts of the intramural program. The Board provides to the National Advisory Mental Health Council for review a description of its activities annually.

20b. How does the Committee balance its membership?

The Board consists of approximately twelve members who are outstanding authorities knowledgeable in the basic and clinical medical sciences related to the research activities of the Institute. The advisory role of the Board is scientific and substantive. The Board, through periodic visits to the Laboratories, assesses the research in progress and evaluates productivity and performance of intramural scientists.

20c. How frequent and relevant are the Committee Meetings?

The Board holds approximately three meetings each year for the peer review of intramural laboratories on a rotating basis as required by the PHS Act. During this reporting period, the full Board met three times on the following dates 1/31-2/2/2024, 6/5-7/2024, and 9/24-26/2024. The Chair of the BSC participated in two other activities as part of his duties on 1/30/2024 and

5/10/2024.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

The Board is composed of recognized biomedical and/or behavioral research authorities from outside the NIH in order to secure unbiased and objective evaluation of intramural research programs. Their recommendations are invaluable because the complex nature of research in each Laboratory requires a unique balance and breadth of expertise not available on the NIH staff or from other established resources.

20e. Why is it necessary to close and/or partially closed committee meetings?

The meetings of the Board of Scientific Counselors, National Institute of Mental Health, were closed for the review, discussion, and evaluation of individual programs and projects conducted by the Institute, including consideration of personnel qualifications and performance, the competence of individual investigators, and similar items, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy. Section 552b(c)(6) of the Government in the Sunshine Act permits the closing of meetings where discussion could reveal personal information, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

21. Remarks

Committee Function: Other - Scientific and Technical Peer Review. Dr. Jennifer Mehren is both the DFO and the Committee Decision Maker for the BSC based on the assignment of responsibilities within this Institute. Reports: This committee did not produce any reports during the

fiscal year. Dr. Groh was reassigned to Chair and her term was extended a year.

Narrative Description

NIH's mission is to seek fundamental knowledge about the nature and behavior of living systems and the application of that knowledge to enhance health, lengthen life, and reduce illness and disability. NIH works toward that mission by conducting research in its own laboratories. The mission of the Board of Scientific Counselors is to assess the quality of the Institute's intramural research programs and to evaluate the productivity and performance of intramural scientists in accordance with Section 492(b) of the PHS Act, as amended and shall also, as requested by the Director, NIH, undertake peer review of extramural funding applications as required by section 492(a) of the Public Health Service Act, as amended. Board reviews the research of each of the NIMH Laboratories and Branches as well as the independent Sections every 4 years or sooner where appropriate.

Cost Savings Comments

NIH supported basic and clinical research accomplishments often take many years to unfold into new diagnostic tests and new ways to treat and prevent diseases.

What is the approximate Number of recommendations produced by this committee for the life of the committee?

0

Number of Recommendations Comments

It is not possible to assign a number for the recommendations made by the Board. They review the research and the scientists and make numerous recommendations.

Information on the research funded by NIH is available through the RePORT (Research Portfolio Online Reporting Tool) website. RePORT provides access to reports, data, and analyses of NIH research activities that advance the mission of the NIH, including information on NIH expenditures, strategic plans, reports on NIH funding, and reports on the organization and people involved in NIH research and research training. The RePORT website is located at <http://report.nih.gov>.

Action Comments

The Scientific Director and other NIH officials use the recommendations made by the BSC in evaluating the quality of the intramural research programs including scientific priorities

and resources available. As a result, the following decisions were made: The BSC made recommendations related to the specific research priorities of reviewed laboratories and core facilities, as needed. Additionally, the BSC recommended changes in resources within reviewed laboratories and core facilities, as needed.

Is the Committee engaged in the review of applications for grants?

No

Grant Review Comments

Although grant reviews are included in the duties of this Board, there were no grant reviews performed during this fiscal year.
