**20a. How does the Committee accomplish its purpose?**

The committee meets annually to review nominations and provide a list of approximately 10 recommendations to the President for consideration of the National Medal of Science.

**20b. How does the Committee balance its membership?**

The committee is comprised of 16 members, two of whom are ex officio by legislation (the President's Science Advisor and President, National Academy of Sciences). The fourteen Presidentially appointed members are from among recognized leaders in the various fields of science in which Medals are awarded. Committee members review nominations of individuals who have made outstanding contributions to knowledge in the physical, biological, mathematical, chemical, engineering, and behavioral and social sciences.

**20c. How frequent and relevant are the Committee Meetings?**

The Committee meets once a year to review nominations and to transmit its recommendations and views of the candidates to the President for final selection. The Medal was established to provide national recognition by the President for outstanding contributions to scientific knowledge , distinguished service in the advancement of science and engineering, contributions to innovation and industry, and influence on education.

**20d. Why can't the advice or information this committee provides be obtained elsewhere?**

The Committee membership, composed of outstanding working scientists from the behavioral and social sciences, biological, physical, chemical, mathematical, and engineering sciences, is

knowledgeable about current and on-going research programs throughout the country.

**20e. Why is it necessary to close and/or partially closed committee meetings?**

Committee meetings are closed because the nominations packages reviewed and discussed include descriptions of performance of individuals and information of a personal nature where disclosure can constitute unwarranted invasions of personal privacy.

**21. Remarks**

The President's Committee on the National Medal of Science was established by Congress in 1959 and the NSF was charged with administering the Medal for the President. The involvement of knowledgeable peers from outside the Foundation in the review of candidates for the Medal is delegated by law. Pursuant to the Continuance of Certain Federal Advisory Committees Executive Order, the establishing E.O., 11287, for this committee was not extended and the committee terminated on 30 September 2025.
