20a. How does the Committee accomplish its purpose?

The Board will provide advice and guidance to Assistant Secretary for Preparedness and Response within the U.S. Department of Health and Human Services (HHS), and to the HHS Secretary on preventing, preparing for, and responding to adverse health effects of public health emergencies and natural and man-made disasters. Additionally, the Board will provide advice on matters related to emergency preparedness and response.

20b. How does the Committee balance its membership?

The Board shall consist of 13 voting members, including the Chairperson; additionally, there may be non-voting ex officio members. Members and the Chairperson shall be appointed by the Secretary from the among the Nation's preeminent scientific, public health and medical experts, as follows: (a) such Federal officials as the Secretary determines are necessary to support the functions of the Board, (b) four individuals from the pharmaceutical, biotechnology and device industries, (c) four academicians, and (d) five other members as determined appropriate by the Secretary, one of whom must be a practicing health care professional and one of whom must be from an organization representing health care consumers. Additional members for category (d), above, one of whom will be a pediatric subject matter expert and one whom will be a State, tribal, territorial or local public health official.

20c. How frequent and relevant are the Committee Meetings?

The Board shall meet at least twice annually and may be convened on an as-needed basis, at the call of the Secretary or the Designated Federal Official. Over the last year the Board held one public face-to-face meeting and several virtual meetings in response to requests from the Department on pertinent issues.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

The Pandemic and All-Hazards Preparedness Act, signed into law on December 19, 2006, 42 U.S.C. 247d-7f, directs the Secretary of the U.S. Department of Health and Human Services to establish the National Biodefense Science Board to provide expert advice and guidance to the Secretary on scientific, technical and other matters of special interest to the Department of Health and Human Services regarding current and future chemical, biological, nuclear, and radiological agents, whether naturally occurring, accidental, or deliberate. The committee is advising on issues critical to the Department in preparedness and public health issues.

20e. Why is it necessary to close and/or partially closed committee meetings?

Narrative Description

The Pandemic and All-Hazards Preparedness Act of 2006 directed the Secretary of the U.S. Department of Health and Human Services (HHS) to establish the National Biodefense Science Board (NBSB). The NBSB has been created to provide expert advice and guidance to the Secretary on scientific, technical and other matters of special interest to HHS regarding activities to prevent, prepare for and respond to adverse health effects of public health emergencies resulting from current and future chemical, biological, radiological and nuclear agents, whether naturally occurring, accidental, or deliberate. The Secretary of HHS leads all Federal public health and medical response to public health emergencies. The HHS Office of the Assistant Secretary for Preparedness and Response (ASPR), coordinates the national Emergency Support Function #8 preparedness, response, and recovery actions. This includes the responsibility to define and prioritize requirements for public health medical countermeasures; coordinate research, development, and procurement activities; and set deployment and use strategies for medical countermeasures held in the national stockpile. The NBSB will directly facilitate the mission of HHS by providing expert, independent advice and recommendations to the Secretary and/or ASPR. Specifically, the Board shall function to examine current and future trends, challenges, and opportunities presented by advances in biological and life sciences, biotechnology, and genetic engineering with respect to threats posed by naturally occurring, accidental, or deliberate dissemination of infectious diseases and chemical, biological, radiological and nuclear agents. At the request of the Secretary and/or ASPR, the Board shall provide recommendations and findings for expanded,

intensified, and coordinated biodefense research and developmental activities to promote and assist in the efforts of establishing a Nation prepared to prevent, respond to, and reduce the adverse health effects of public emergencies and disasters.

What are the most significant program outcomes associated with this committee?

Checked if Applies

- Improvements to health or safety
- Trust in government
- Major policy changes
- Advance in scientific research
- Effective grant making
- Improved service delivery
- Increased customer satisfaction
- Implementation of laws or regulatory requirements
- Other

Outcome Comments

Not Applicable

What are the cost savings associated with this committee?

Checked if Applies

- None
- Unable to Determine
- Under \$100,000
- \$100,000 - \$500,000
- \$500,001 - \$1,000,000
- \$1,000,001 - \$5,000,000
- \$5,000,001 - \$10,000,000
- Over \$10,000,000
- Cost Savings Other

What is the approximate Number of recommendations produced by this committee for the life of the committee?

164

Number of Recommendations Comments

The number of recommendations for the life of the Committee increased from 151 in the FY-17 report to 164 for FY-18 to account for reports released recently containing 13 additional distinct recommendations.

What is the approximate Percentage of these recommendations that have been or will be Fully implemented by the agency?

45%

% of Recommendations Fully Implemented Comments

The NBSB released two reports in 2018 containing 13 distinct recommendations. None are fully implemented to date.

What is the approximate Percentage of these recommendations that have been or will be Partially implemented by the agency?

10%

% of Recommendations Partially Implemented Comments

The agency continues to advance and utilize scientific investigation and data to learn more about the health effects of disasters, advance preparedness, maximize effectiveness of response and health recovery, enhance community health resilience, utilize performance principles and ensure that the organization continually learns from experience and operates as effectively as possible. Five additional recommendations have been partially implemented.

Does the agency provide the committee with feedback regarding actions taken to implement recommendations or advice offered?

Yes No Not Applicable

Agency Feedback Comments

The feedback is provided in the form of a letter back to the Board from the Secretary or designee. Also, feedback is provided through remarks to the Board from the Assistant Secretary for Preparedness and Response on behalf of the Secretary.

What other actions has the agency taken as a result of the committee's advice or recommendation?

Checked if Applies

- Reorganized Priorities
- Reallocated resources
- Issued new regulation

- Proposed legislation
- Approved grants or other payments
- Other

Action Comments

Is the Committee engaged in the review of applications for grants?

No

Grant Review Comments
