**20a. How does the Committee accomplish its purpose?**

Section 402(b)(9) of the Public Health Service Act states that ...the Director, NIH...shall assure that research at...the National Institutes of Health is subject to review in accordance with section 492. "Section 492(b) states that the Director of NIH

shall establish procedures for periodic technical and scientific peer review of research at the National Institutes of Health. The mission of the Board of Scientific Counselors is to assess the quality of the Institute's intramural research programs and to evaluate the productivity and performance of intramural scientists and shall also, as requested by the Director, NIH, undertake peer review of extramural funding applications as required by section 492 of the Public Health Service Act, as amended". This committee is composed of recognized biomedical and/or behavioral research authorities who represent the forefront of research and technical knowledge and who provide evaluation and peer review of Institute laboratories and staff scientists in the areas of hearing, balance, smell, taste, voice, speech and language. The Board continues to provide indispensable evaluation and advisory functions in the science management of the intramural research programs. In addition to the formal meetings for peer review of each laboratory, the chairman and individual Board members are frequently consulted for advice on staff appointments and program development.

**20b. How does the Committee balance its membership?**

The Board consists of approximately twelve members who are outstanding authorities knowledgeable in the specialized fields of otolaryngology, molecular biology, neurochemistry, molecular genetics, immunology, cell biology, voice-speech sciences, and the vestibular system. The advisory role of the Board is scientific and substantive. The Board, through periodic visits to the laboratories and consultation with the Scientific Director, assesses the research in progress and evaluates productivity and

performance of staff scientists.

**20c. How frequent and relevant are the Committee Meetings?**

The Board met two times during this reporting period to assess the progress and future direction in the Division of Intramural Research, National Institute on Deafness and Other Communication Disorders (NIDCD). The Board met on 11/1/2021 and 03/30/2022 for the peer review of NIDCD intramural laboratories as required by the PHS Act.

**20d. Why can't the advice or information this committee provides be obtained elsewhere?**

This Board is composed of recognized biomedical and/or behavioral research authorities from outside NIH in order to secure unbiased and objective evaluation of intramural research programs. Their recommendations are invaluable because the complex nature of research in each laboratory requires a unique balance and breadth of expertise not available on the NIH staff or from other established resources.

**20e. Why is it necessary to close and/or partially closed committee meetings?**

The meetings of the Board were either partially closed or closed for the review, discussion, and evaluation of individual programs and projects conducted by the Institute, including consideration of personnel qualifications and performance, the competence of individual investigators, and similar items, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy. Section 552b(c)(6) of the Government in the Sunshine Act permits the closing of meetings where discussion could reveal personal information, the disclosure of which would

constitute a clearly unwarranted invasion of personal privacy.

**Narrative Description**

The mission of the NIDCD Board of Scientific Counselors (BSC) is to assess the quality and progress of the Institute’s intramural research programs, the appropriateness of resources assigned to the scientists and their proposed future research, and to evaluate the productivity and performance of staff scientists. Section 402(b)(9) of the Public Health Service Act states that ...the Director, NIH...shall assure that research at...the National Institutes of Health is subject to review in accordance with section 492. "Section 492(b) states that the Director of NIH shall establish procedures for periodic technical and scientific peer review of research at the National Institutes of Health. The mission of the Board of Scientific Counselors is to assess the quality of the Institute's intramural research programs and to evaluate the productivity and performance of intramural scientists and shall also, as requested by the Director, NIH, undertake peer review of extramural funding applications as required by section 492 of the Public Health Act, as amended." Each scientist is reviewed at least every four years. This process is essential to maintain the excellence of science in the intramural program. The reviews of the scientists have been thorough and objective and have played a major role in establishing and maintaining the excellence of the Intramural Research Program.

**Cost Savings Comments**

NIH supported basic and clinical research accomplishments often take many years to unfold into new diagnostic tests and new ways to treat and prevent diseases.

**What is the approximate Number of recommendations produced by this committee for the life of the committee?**

74

**Number of Recommendations Comments**

The number of recommendations is from 2003 forward.

**What is the approximate Percentage of these recommendations that have been or will be Fully implemented by the agency?**

0%

**% of Recommendations Fully Implemented Comments**

Information on the research funded by NIH is available through the RePORT (Research Portfolio Online Reporting Tool) website. RePORT provides access to reports, data, and analyses of NIH research activities that advance the mission of the NIH, including information on NIH expenditures, strategic plans, reports on NIH funding, and reports on the organization and people involved in NIH research and research training. The RePORT website is located at <http://report.nih.gov>.

**Does the agency provide the committee with feedback regarding actions taken to implement recommendations or advice offered?**

Yes  No  Not Applicable

**Agency Feedback Comments**

Information resulting from closed Board of Scientific Counselors meetings is subject to the Freedom of Information Act. The public can view information on NIH Intramural Research Reports found on the NIH Intramural Research Sourcebook website located at <https://oir.nih.gov/sourcebook/intramural-research-communications-resources/annual-reports-bit>

**What other actions has the agency taken as a result of the committee's advice or recommendation?**

Checked if Applies

- Reorganized Priorities
- Reallocated resources
- Issued new regulation

- Proposed legislation
- Approved grants or other payments
- Other

**Action Comments**

The Scientific Director and other NIH officials use the recommendations made by the BSC in evaluating the quality of the intramural research programs including scientific priorities and resources available. No changes were made to existing laboratory research priorities or resources.

**Is the Committee engaged in the review of applications for grants?**

No

**Grant Review Comments**

Although grant reviews are included in the duties of this Board, there were no grant reviews performed during this fiscal year.
