20a. How does the Committee accomplish its purpose?

Section 492 of the PHS Act states that The Secretary...shall by regulation require appropriate technical and scientific peer review of -- (A) applications...; and (B) biomedical and behavioral research and development contracts. This committee is composed of recognized biomedical and behavioral research authorities who represent the forefront of research and technical knowledge and who provide first-level merit review of highly

scientific and technical research grant applications and/or contract proposals in the area of biostatistical methods and research design, health services organization and delivery, nursing science, biomedical computing and health informatics, community prevention, nursing, and health informatics initiatives. During the reporting period the committee reviewed 2,305 applications requesting \$4,163,289,427.00.

20b. How does the Committee balance its membership?

The members of this committee are authorities knowledgeable in all areas relating to relating to (1) the broad areas of biobehavioral processes; including conditioning, affect and stress, regulatory and hormonal function, and appetitive behaviors; (2) the broad areas of language and communication, learning, cognition and perception, and motor function, including sound production; and (3) the broad areas of behavioral, developmental, and substance use disorders including psychopathology in infants, children, adolescents and adults.

20c. How frequent and relevant are the Committee Meetings?

The committee held 30 meetings during this reporting period.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

This committee is composed of recognized biomedical and/or behavioral research authorities who represent the forefront of research and technical knowledge and who provide first-level merit review of highly scientific and technical research grant applications and contract proposals. These evaluations and

recommendations cannot be obtained from other sources because the specialized, complex nature of the applications and proposals requires a unique balance and breadth of expertise not available on the NIH staff or from other established sources.

20e. Why is it necessary to close and/or partially closed committee meetings?

The meetings of the committee were closed to the public for the review of grant applications. Sections 552b(c)(4) and 552b(c)(6) of the Government in the Sunshine Act permit the closing of meetings where discussion could reveal confidential trade secrets or commercial property such as patentable material and personal information, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

21. Remarks

This committee did not produce any public reports during the fiscal year. Due to the assignment of responsibilities within the Center, the roles of the committee designated federal officer and committee decision maker are filled by the same individual. Drs. Dowin Boatright, Robert Grundmeier, Vincent Liu, and Jennifer Mack were reassigned to the role of chairperson during the fiscal year. Drs. Meghan Lane-Fall and Margie Snyder were reappointed to the role of chairperson through 06/30/2026. The following members' terms ended early: Ki Chon (7/29/2024), Robin Dail (07/05/2024), Margaret Danilovich (11/15/2023), Darren DeWalt (08/15/2024) and Miriam Ezenwa (07/01/2024) and Olena Mazurenko (11/19/2023). The following members' terms ended on 5/14/2024: Lisa Abuogi, Yuri Amirkhanian, Arthur Andrews, Raji

Balasubramanian, Till Barnighausen, Paloma Beamer, Eran Bendavid, Michelle Birkett, Erin Bonar, Katerina Christopoulos, Lynae Darbes, Rachel Davis, Glen Duncan, Bart Ferket, Trenette Goings, Carol Golin, Shannon Halloway, Vanessa Hiratsuka, Joseph Hogan, Nadia Islam, Samuel Jenness, Catherine Karr, Akilah Keita, Brian Kelly, Deanna Kerrigan, Rebecca Krukowski, Brian Lau, Julia Lechuga, Sunmin Lee, Corina Lelutiu-Weinberger, Bian Liu, Winfred Luseno, Elizabeth Lyons, Sheryl Magzamen, Christina Mair, Brandon Marshall, Molly Martin, Philip Massey, Raymond McClelland, Erin Meek, Ramin Mojtabai, Toben Nelson, Ank Nijhawan, Angulique Outlaw, Kerstin Pahl, Minal Patel, Molly Perkins, Mai Pho, Lisa Quintiliani, Penny Ralston, Betsy Risendal, Lisa Rosas, Marco Salemi, Isabel Scarinci, Thomas Stopka, Rui Wang, Rachel Widome, Lovoria Williams, Edith Williams, Kerri Winters-Stone, Zenong Yin, April Young, and Motao Zhu. The following members' terms ended on 9/5/2024: Anne Alexandrov, Uduak Andy, Stacy Bailey, Kelly Baron, Ian Bennett, John Billimek, Kathryn Blake, Abraham Brody, Linda Chlan, James Dionne-Odom, John Dodson, Paul Drawz, Michelle Eakin, Maureen George, Ilana Graetz, Amy Hoffman, Rebecca Hubbard, Manuel Jimenez, Robinder Khemani, Elizabeth Krans, Henry Lee, Jennifer Levin, Robert Lucero, Jennifer Mack, Ivan Molton, Ukamaka Oruche, Monique Reed, Manney Reid, Cielito Reyes-Gibby, Rebecca Schnall, Tamara Somers, Mi-Kyung Song, Virginia Sun, Alexia Torke, Lauren Van Scoy, Manuel Vazquez, Kristine Williams, and Hong Zhu. In general, initial/integrated review group (IRG) members serve up to six years, which is documented in the Members list. Temporary members are individuals recruited based on expertise needed for each meeting. Some

temporary members may attend one meeting only while others may attend multiple meetings. Instead of appointment start and end dates, each meeting date on which the temporary member served is identified on the Members list. Meeting rosters, including members' affiliations and zip codes are available online at <https://public.era.nih.gov/pubroster/>.

Narrative Description

NIH's mission is to seek fundamental knowledge about the nature and behavior of living systems and the application of that knowledge to enhance health, lengthen life, and reduce illness and disability. NIH works toward that mission by supporting the research of non-Federal scientists in universities, medical schools, hospitals, and research institutions throughout the country and abroad. Section 492 of the PHS Act states that The Secretary ...shall by regulation require appropriate technical and scientific peer review of - (A) applications...; and (B) biomedical and behavioral research and development contracts...

Cost Savings Comments

NIH supported basic and clinical research accomplishments often take many years to unfold into new diagnostic tests and new ways to treat and prevent diseases.

What is the approximate Number of recommendations produced by this committee for the life of the committee?

35,825

Number of Recommendations Comments

Grant Review

What is the approximate Percentage of these recommendations that have been or will be Fully implemented by the agency?

0%

% of Recommendations Fully Implemented Comments

The mission of the Center for Scientific Review is to provide the funding Institutes and Centers of NIH with the scientific and technical merit of research grant applications submitted to the NIH. It is these Institutes or Centers and their advisory councils that make funding decisions. NIH Peer Review Committees are involved in the initial review of research grant applications. The NIH dual peer review system is mandated by statute in accordance with section 492 of the Public Health Service Act. The charge to this committee is to determine scientific and technical merit of the individual grants or contracts. These recommendations are forwarded to Federal officials who generally accept the committee's recommendations and favorable applications are then forwarded

for the second level of review performed by Institute and Center (IC) National Advisory Councils or Boards. Only applications that are favorably recommended by both the initial peer review committee and the Advisory Council may be funded.

What is the approximate Percentage of these recommendations that have been or will be Partially implemented by the agency?

0%

% of Recommendations Partially Implemented Comments

The mission of the Center for Scientific Review is to provide the funding Institutes and Centers of NIH with the scientific and technical merit of research grant applications submitted to the NIH. It is these Institutes or Centers and their advisory councils that make funding decisions. NIH Peer Review Committees are involved in the initial review of research grant applications. The NIH dual peer review system is mandated by statute in accordance with section 492 of the Public Health Service Act. The charge to this committee is to determine scientific and technical merit of the individual grants or contracts. Other ☐

Action Comments

An action of “approved” or “recommended” for grants receiving initial peer review by this committee does not infer that the grant will be or has been funded. Research grant applications submitted to NIH must go through a two-step review process that includes the initial peer review for scientific and technical merit and a second step of review and approval by a National Advisory Council for program relevance. In addition, prior to an award or funding being made, NIH staff must conduct an administrative review for a number of other considerations. These include alignment with NIH’s funding principles, review of the project budget, assessment of the applicant’s management systems, determination of applicant eligibility, and compliance with public policy requirements. After all these steps have been completed, NIH officials make funding decisions on individual grant applications.

Is the Committee engaged in the review of applications for grants?

Yes

What is the estimated Number of grants reviewed for approval

What is the estimated Number of grants recommended for approval 2,305
2,305

What is the estimated Dollar Value of grants recommended for approval
\$4,163,289,427
