**20a. How does the Committee accomplish its purpose?**

The Medicare Evidence Development & Coverage Advisory Committee (MEDCAC) reviews and evaluates medical literature, technical assessments, etc., and examines data and information on the effectiveness and appropriateness of medical services and items that are covered under Medicare or eligible for

coverage under Medicare. The Committee works from an agenda that lists specific issues and develops technical advice to assist the Centers for Medicare & Medicaid Services (CMS) in determining reasonable and necessary applications of medical services, items, and technologies. The Committee may be asked to develop recommendations about specific issues of Medicare coverage and/or to review and comment upon proposed or existing Medicare coverage policies. The Committee may also be asked to comment on pertinent aspects of proposals being considered under CMS's demonstration authority.

**20b. How does the Committee balance its membership?**

The members were selected from among authorities in clinical and administrative medicine, biologic and physical sciences, public health administration, health care data and information management and analysis, the economics of health care, medical ethics, and other related professions. The members include at large standing members, 20 of which are patient advocates and 10 of which are industry representatives. Members are selected based upon their individual qualifications and not solely as representatives of professional associations or societies. We wish to ensure adequate representation of those enrolled in the Medicare program. Therefore, we encourage nominations of qualified candidates who can represent these lived experiences. The Committee includes groups in clinical, administrative and medical sciences. The membership represents the North, South, East and West geographic areas of the United States. Members serve staggered two-year terms and may serve up to eight years.

**20c. How frequent and relevant are the Committee Meetings?**

CCSQ, Coverage & Analysis Group has held, on average, two MEDCAC meetings per year. There was a virtual MEDCAC subcommittee meeting held on March 26, 2025 and a virtual MEDCAC meeting on June 25, 2025. We can have up to eight MEDCAC meetings per fiscal year.

**20d. Why can't the advice or information this committee provides be obtained elsewhere?**

The Committee provides advice on clinical coverage issues. No other organization has the appropriate range of clinical, scientific, and medical expertise to perform these functions.

**20e. Why is it necessary to close and/or partially closed committee meetings?**

No formal committee meetings have been closed to the public.

**21. Remarks**

**Designated Federal Officer**

Leah Cromwell DFO

**Narrative Description**

The primary role of the MEDCAC is to provide independent expert scientific advice to CMS in its evaluation of Medicare coverage and assist CMS in making sound decisions based upon the reasoned application of good science. The MEDCAC process encourages public interaction with CMS in gathering information that is utilized in arriving at Medicare coverage decisions, which supports CMS' goal of making the Medicare coverage decision process more open, participatory, transparent and understandable to the public.
