20a. How does the Committee accomplish its purpose?

During in-person and phone meetings, Committee members discuss a variety of policies that are of interest to the assisted housing industry and that could be studied by new MTW PHAs. For each policy idea, the committee discusses how the policy could be structured and potential research methods, ultimately recommending whether such policies should be considered by HUD for study. The Committee has used written public comments, research studies, HUD program information, and verbal public comment from meeting attendees to help inform its dialogue.

20b. How does the Committee balance its membership?

HUD created a Membership Balance Plan to ensure a balanced membership for this committee.

20c. How frequent and relevant are the Committee Meetings?

The Committee will meet in-person approximately one (1) time per fiscal year and by conference call up to six (6) times as needed to render advice to HUD.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

This Committee was established by Congress in statute, thus Congress determined there was a need for external industry and research expertise to inform the policies studied under the MTW Expansion.

20e. Why is it necessary to close and/or partially closed committee meetings?

Not Applicable

21. Remarks

The committee did not formally designate a chair or co-chairs, instead the Committee operates through consensus. Payments to Federal Employees serving as Committee members (RGEs) is their Federal salaries only and not any other payments. Committee did not meet due to COVID Pandemic.

What is the approximate Number of recommendations produced by this committee for the life of the committee?

4

Number of Recommendations Comments

There were actually 4 recommendations, not 5 as was previously reported in the FY19 report. The 4 recommendations are as follows: Committee recommends the first cohort policy to study is the general effect of MTW flexibility for PHAs with fewer than 1,000 combined units. The second policy recommended to study is rent reform. Under this cohort MTW agencies, the Committee suggests three rent structures for PHAs to choose from: stepped-up rents, flat rents, or income-based tiered rents. PHAs would also be allowed to include time limits or work requirements provided they had a viable strategy for participants to access supportive services. The third policy recommendation is on work incentives. The fourth policy recommended for study is landlord incentive programs. Under this cohort, MTW Agencies would agree to utilize MTW flexibilities that might increase landlord participation. Agencies could propose some combination of payment standard flexibility, financial incentives to landlords, and less frequent inspections.

What is the approximate Percentage of these recommendations that have been or will be Fully implemented by the agency?
