18d. Other (all other funds not captured by any other cost category)	\$0.00 \$0.00
18e. Total Costs	\$0.00 \$0.00
19. Federal Staff Support Years (FTE)	0.00 0.00

20a. How does the Committee accomplish its purpose?

Section 492 of the PHS Act states that The Secretary ... shall by regulation require appropriate technical and scientific peer review of -- (A) applications...; and (B)...biomedical and behavioral research and development contracts... This Council is composed of both scientific and public members who provide the second level of peer review; advise on policy development, program implementation and evaluation; and

research needs and opportunities of the Institute. The Council reviewed the Behavioral and Social Research Program; the Biology of Aging Program; the Neuroscience and Neuropsychology of Aging Program; the Geriatrics and Clinical Gerontology Program; and the NIA Intramural Research Program. Council also agreed to undertake a review of minority aging research within the NIA, with a focus on science and training. The Council reviewed 14,362 applications requesting \$28,660,684,798.00.

20b. How does the Committee balance its membership?

The National Advisory Council on Aging is composed of not more than 18 appointed members with research interests and responsibilities paralleling those of the National Institute on Aging. Two-thirds of the appointed members are leaders in the health and scientific disciplines, in the areas of biological, medical, behavioral and social sciences relating to aging and public health. One-third of the appointed members from the general public include leaders in the fields of public policy, law, health policy, economics and management. The Council will also consist of at least six federal members who will serve as ex officios.

20c. How frequent and relevant are the Committee Meetings?

Meetings are held not less than three times each fiscal year. The National Advisory Council on Aging provides advice on a continuing basis on the type of scientific research programs that should be supported and on how to carry out the designated mission and responsibilities of the Institute. It also provides ongoing review of the relevance and effectiveness of the existing

programs.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

The National Advisory Council on Aging is composed of both scientific and public members who provide the second level of review for research grant applications; advise on policy development, program implementation and evaluation; and research needs and opportunities of the Institute. The quality, scope, and balance of advice from this Council cannot be obtained from NIH staff or from other established sources because the membership of the Council is constituted to meet the specific requirements of the mandated mission of the Council and the Institute.

20e. Why is it necessary to close and/or partially closed committee meetings?

The meetings of the National Advisory Council on Aging were partially closed to the public for the review of grant applications. Section 552b(c)(4) and 552b(c)(6) of the Government in the Sunshine Act permit closing of meetings where discussion could reveal confidential trade secrets or commercial property such as patentable material and personal information, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

21. Remarks

Committee Function: Other - National Scientific and Advisory. DFO/Committee Decision Maker: The committee designated federal official and the committee decision maker are held by the same person based on the assignment of duties at this Institute. Committee members: Drs. Huang, Huling-Hummel, Reuben, and Schneider were

administratively extended until 6/29/25. Dr. Charlotte Peterson resigned from the committee and was replaced by Laura Neidernhofer to finish out the term; Dr. Neidernhofer will be re-nominated on the 2026 slate so that she can complete a full 4 year term. All other member start and end dates were reviewed. Reports: This committee did not produce any reports this fiscal year. Dr. Matthew Memoli served as Acting Director, NIH prior to Dr. Jayanta Bhattacharya's approved nomination as Director, NIH. Dorothy Fink served as Acting HHS Secretary prior to Robert Kennedy's approved nomination.

Designated Federal Officer

WESTIN, JONATHAN	05/29/2024	12/31/2028	Program Specialist, National Institute on Disability, Independent Living, and Rehabilitation Research (NIDILRR), Administration for Community Living (ACL)	Ex Officio Member

Number of Committee Members Listed: 24

Narrative Description

NIH's mission is to seek fundamental knowledge about the nature and behavior of living systems and the application of that knowledge to enhance health, lengthen life, and reduce illness and disability. NIH works toward that mission by: conducting research in its own laboratories; supporting the research of non-Federal scientists in universities, medical schools, hospitals, and research institutions throughout the country and abroad; helping in the training of research investigators; and fostering communication of medical and health sciences information. Section 492 of the PHS Act states that The Secretary...shall by regulation require appropriate technical and scientific peer review of - (A) applications...; and (B) biomedical and behavioral research and development contracts... The National Advisory Council on Aging provides second level peer review, makes recommendations for support of grants, contracts proposals, and cooperative agreements; advises on policy development program, implementation and evaluation; and research needs of the National Institute on Aging.

What are the most significant program outcomes associated with this committee?

Checked if
Applies

Improvements to health or safety	<input type="checkbox"/>
Trust in government	<input type="checkbox"/>
Major policy changes	<input type="checkbox"/>
Advance in scientific research	<input checked="" type="checkbox"/>
Effective grant making	<input checked="" type="checkbox"/>
Improved service delivery	<input type="checkbox"/>
Increased customer satisfaction	<input type="checkbox"/>
Implementation of laws or regulatory requirements	<input checked="" type="checkbox"/>
Other	<input type="checkbox"/>

Outcome Comments

N/A

What are the cost savings associated with this committee?

Checked if Applies

None	<input type="checkbox"/>
Unable to Determine	<input checked="" type="checkbox"/>
Under \$100,000	<input type="checkbox"/>
\$100,000 - \$500,000	<input type="checkbox"/>
\$500,001 - \$1,000,000	<input type="checkbox"/>
\$1,000,001 - \$5,000,000	<input type="checkbox"/>
\$5,000,001 - \$10,000,000	<input type="checkbox"/>
Over \$10,000,000	<input type="checkbox"/>
Cost Savings Other	<input type="checkbox"/>

Cost Savings Comments

NIH supported basic and clinical research accomplishments often take many years to unfold into new diagnostic tests and new ways to treat and prevent diseases.

What is the approximate Number of recommendations produced by this committee for the life of the committee?

180,706

Number of Recommendations Comments

The number of recommendations includes the second level review of grant applications.
The number of grants reviewed in FY 2024 was 14,362.

What is the approximate Percentage of these recommendations that have been or will be Fully implemented by the agency?

0%

% of Recommendations Fully Implemented Comments

Information on the research funded by NIH is available through the RePORT (Research Portfolio Online Reporting Tool) website. RePORT provides access to reports, data, and analyses of NIH research activities that advance the mission of the NIH, including information on NIH expenditures, strategic plans, reports on NIH funding, and reports on the organization and people involved in NIH research and research training. The RePORT website is located at <http://report.nih.gov>.

What is the approximate Percentage of these recommendations that have been or will be Partially implemented by the agency?

0%

% of Recommendations Partially Implemented Comments

Information on the research funded by NIH is available through the RePORT (Research Portfolio Online Reporting Tool) website. RePORT provides access to reports, data, and analyses of NIH research activities that advance the mission of the NIH, including information on NIH expenditures, strategic plans, reports on NIH funding, and reports on the organization and people involved in NIH research and research training. The RePORT website is located at <http://report.nih.gov>.

Does the agency provide the committee with feedback regarding actions taken to implement recommendations or advice offered?

Yes ☒ No ☐ Not Applicable ☐

Agency Feedback Comments

Information is provided to the public at the open session of each Council meeting through reports and the Director's update. The public can view information related to the Council through the council's official website.

What other actions has the agency taken as a result of the committee's advice or recommendation?

Checked if Applies

Reorganized Priorities	<input type="checkbox"/>
Reallocated resources	<input type="checkbox"/>
Issued new regulation	<input type="checkbox"/>
Proposed legislation	<input type="checkbox"/>
Approved grants or other payments	<input checked="" type="checkbox"/>
Other	<input type="checkbox"/>

Action Comments

An action of approved or recommended for grants receiving review by this council does not infer that the grant will be or has been funded. Research grant applications submitted to NIH must go through a two-step review process that includes initial peer review for scientific and technical merit and a second step of review for a number of other considerations. These include alignment with NIH's funding principles, review of the project budget, assessment of the applicant's management systems, determination of applicant eligibility, and compliance with public policy requirements. After all of these steps have been completed, NIH officials make funding decisions on individual grant applications.

Is the Committee engaged in the review of applications for grants?

Yes

What is the estimated Number of grants reviewed for approval

What is the estimated Number of grants recommended for approval 14,362
14,362

What is the estimated Dollar Value of grants recommended for approval
\$28,660,684,798

Grant Review Comments
