**20a. How does the Committee accomplish its purpose?**

Committee members reviewed and evaluated over 300 proposals submitted to the Division of Equity for Excellence in STEM (EES) for financial support. The Panel reviewed proposals whose goals focus on performance results that demonstrate research leading to new knowledge and techniques, dissemination and use of discovered results, preparing the STEM workforce to reflect the diverse human resource pool in the U.S., and improving skills and performances in the STEM educational continuum (K-12 and graduate levels). Guided by NSF proposal review criteria and specific programmatic criteria, the committee will review and advise division staff on the most meritorious proposals.

**20b. How does the Committee balance its membership?**

Membership was selected on an as needed basis in response to specific proposals/sites to be reviewed. Members were selected for their demonstrated scientific and engineering expertise so as to represent a reasonable balance of capability in the various subfields of the proposals to be reviewed. Consideration was given to achieving geographic balance, institutional type,

and to enhancing representation for women, minorities, younger and disabled scientists.

**20c. How frequent and relevant are the Committee Meetings?**

It was necessary to convene 63 panels in FY 25; the number of meetings is determined by the number of proposals to be reviewed and the need for as timely a review as possible within the limited resources available for support of the panel.

**20d. Why can't the advice or information this committee provides be obtained elsewhere?**

Proposals handled in EES are interdisciplinary which does not lend itself to mail review only. Additionally, the use of panels vs ad hoc mail review is more efficient and cost effective. Committee costs were less than 0.5% of the awards made as a result of the panels' review.

**20e. Why is it necessary to close and/or partially closed committee meetings?**

To review proposals that included information or a proprietary or confidential nature, including technical information; financial data such as salaries; and personal information concerning individuals associated with the proposals.

**21. Remarks**

The Proposal Review Panel for Equity for Excellence in STEM terminated on June 28, 2025, per internal agency determination and pursuant to E.O. 14217, Commencing the Reduction of the Federal Bureaucracy, Section 2(g).

**Designated Federal Officer**

Felecia Nave Division Director, EES
