<b>18d. Total</b>	\$0.00 \$0.00
<b>19. Federal Staff Support Years (FTE)</b>	0.00 0.00

**20a. How does the Committee accomplish its purpose?**

Section 492 of the PHS Act states that The Secretary...shall by regulation require appropriate technical and scientific peer review of -- (A) applications...; and (B) biomedical and behavioral research and development contracts. This committee is composed of recognized biomedical and behavioral research authorities who represent the forefront of research and technical knowledge and who provide first-level merit review of highly scientific and technical research grant applications and/or contract proposals relating to scientific areas relevant to infectious diseases and immunology, covering virology and viral pathogenesis (including HIV), bacteriology and bacterial pathogenesis, fungal pathogenesis,

parasitology and parasitic diseases, cellular and molecular immunology, and fundamental aspects of the innate and adaptive immune system. During this reporting period, the committee reviewed 1,844 applications requesting \$2,439,897,932.00.

**20b. How does the Committee balance its membership?**

The members of this committee are authorities knowledgeable in the fields relating to infectious diseases and immunology, covering virology and viral pathogenesis (including HIV), bacteriology and bacterial pathogenesis, fungal pathogenesis, parasitology and parasitic diseases, cellular and molecular immunology, and fundamental aspects of the innate and adaptive immune system.

**20c. How frequent and relevant are the Committee Meetings?**

The committee held 24 meetings during this reporting period.

**20d. Why can't the advice or information this committee provides be obtained elsewhere?**

This committee is composed of recognized biomedical and/or behavioral research authorities who represent the forefront of research and technical knowledge and who provide first-level merit review of highly scientific and technical research grant applications and contract proposals. These evaluations and recommendations can not be obtained from other sources because the specialized, complex nature of the applications and proposals requires a unique balance and breadth of expertise not available on the NIH staff or from other established sources.

**20e. Why is it necessary to close and/or**

**partially closed committee meetings?**

The meetings of the committee were closed to the public for the review of grant applications.

Sections 552b(c)(4) and 552b(c)(6) of the Government in the Sunshine Act permit the closing of meetings where discussion could reveal confidential trade secrets or commercial property such as patentable material and personal information, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

**21. Remarks**

This committee did not produce any public reports during the fiscal year. Drs. Patricia Champion, David Kadosh, David Knipe, Owen Pornillos, and Joseph Sun's roles changed to chairperson during the fiscal year. Dr. David Kadosh was reappointed during the fiscal year. The following members' terms ended early: Matthew Anderson (9/30/2023), William Decker (4/26/2023), Colleen Jonsson (7/31/2023), Maria Kalamvoki (7/31/2023), Daniel Perez (7/31/2023), Margaret Scull (7/31/2023), Nathan Schmidt (12/29/2022), Christopher Sullivan (7/31/2023), Hengli Tang (7/31/2023), Christine Wobus (12/21/2022), and Jian Zhang (12/11/2022). Due to the assignment of responsibilities within the Center, the roles of the committee designated federal official and committee decision maker are filled by the same individual. Due to the larger number of members serving on this committee, NIH staff are unable to provide additional information on Occupation or Affiliation. Additional information on an individual's affiliation may be obtained by contacting the designated federal officer listed in this report. Zip Codes: Due to the large number of members associated with this committee, NIH staff are unable to provide individual zip codes for all

members. Current individual meeting rosters, including zip codes are available online at <https://public.csr.nih.gov/IRGs#IDIA>. Drs. Amanda Brown (7/23/2021-6/30/2025) and Manish Butte (7/1/2021-6/30/2025) were inadvertently omitted from the FY 2021 and FY 2022 reports. In general, initial/integrated review group (IRG) members serve up to six years, which is documented in the Members list. The permanent membership of this IRG may be supplemented at any meeting with temporary members who have experience or expertise in the disciplines and fields related to the IRG's function and are appointed to review some or all of the applications considered at that meeting. Therefore, the Members list reflects meeting dates, not appointment start and end dates for these members. While only one meeting date is listed as an appointment start and end date, an IRG temporary member may have attended several meetings throughout the fiscal year. Meeting rosters, including members' affiliations and zip codes are available online at <https://public.era.nih.gov/pubroster/>.

### **Designated Federal Officer**

Ross Shonat Director, Division of Physiological and Pathological Sciences

## Narrative Description

NIH's mission is to seek fundamental knowledge about the nature

and behavior of living systems and the application of that knowledge to enhance health, lengthen life, and reduce illness and disability. The NIH mission is to uncover new knowledge that will lead to better health for everyone. NIH works toward that mission by supporting the research of non-Federal scientists in universities, medical schools, hospitals, and research institutions throughout the country and abroad. Section 492 of the PHS Act states that The Secretary ...shall by regulation require appropriate technical and scientific peer review of -- (A) applications...; and (B) biomedical and behavioral research and development contracts...

### **Cost Savings Comments**

NIH supported basic and clinical research accomplishments often take many years to unfold into new diagnostic tests and new ways to treat and prevent diseases.

**What is the approximate Number of recommendations produced by this committee for the life of the committee?**

32,309

### **Number of Recommendations Comments**

Grant Review

**What is the approximate Percentage of these recommendations that have been or will be Fully implemented by the agency?**

0%

### **% of Recommendations Fully Implemented Comments**

The mission of the Center for Scientific Review is to provide the funding Institutes and Centers of NIH with the scientific and technical merit of research grant applications submitted to the NIH. It is these Institutes or Centers and their advisory councils that make funding decisions. NIH Peer Review Committees are involved in the initial review of research grant applications. The NIH dual peer review system is mandated by statute in accordance with section 492 of the Public Health Service Act. The charge to this committee is to determine scientific and technical merit of the individual grants or contracts. These recommendations are forwarded to Federal officials who generally accept the committee's recommendations and favorable applications are then forwarded for the second level of review performed by Institute and Center (IC) National Advisory Councils or Boards. Only applications that are favorably recommended by both the initial peer review committee and the Advisory Council may be funded.

**What is the approximate Percentage of these recommendations that have been or will be Partially implemented by the agency?**

**Action Comments**

An action of "approved" or "recommended" for grants receiving initial peer review by this committee does not infer that the grant will be or has been funded. Research grant applications submitted to NIH must go through a two-step review process that includes the initial peer review for scientific and technical merit and a second step of review and approval by a National Advisory Council for program relevance. In addition, prior to an award or funding being made, NIH staff must conduct an administrative review for a number of other considerations. These include alignment with NIH's funding principles,

review of the project budget, assessment of the applicant's management systems, determination of applicant eligibility, and compliance with public policy requirements. After all these steps have been completed, NIH officials make funding decisions on individual grant applications.

**Is the Committee engaged in the review of applications for grants?**

Yes

What is the estimated **Number** of grants reviewed for approval

What is the estimated **Number** of grants recommended for approval 1,844  
1,844

What is the estimated **Dollar Value** of grants recommended for approval  
\$2,439,897,932
