20a. How does the Committee accomplish its purpose?

The Advisory Council on Alzheimer's Research, Care, and Services meets quarterly to discuss programs that impact people with Alzheimer's disease and related dementias and their caregivers. The Advisory Council shall make recommendations about ways to reduce the financial impact of Alzheimer's disease and related dementias and to improve the health outcomes of people with these conditions. The Advisory Council shall provide feedback on a National Plan for Alzheimer's disease. On an annual basis, the Advisory Council shall evaluate

the implementation of the recommendations through an updated national plan.

20b. How does the Committee balance its membership?

The Advisory Council shall consist of at least 10 Federal members including designees from the Centers for Disease Control and Prevention, Administration on Aging, Centers for Medicare and Medicaid Services, Indian Health Service, Office of the Director of the National Institutes of Health, National Science Foundation, Department of Veterans Affairs, Food and Drug Administration, Agency for Healthcare Research and Quality, and the Surgeon General. The Advisory Council shall also consist of 12 non-federal members selected by the Secretary or designee who are Alzheimer's patient advocates, one of whom is living with dementia (2), Alzheimer's caregivers (2), health care providers (2), representatives of State health departments (2), researchers with Alzheimer's-related expertise in basic, translational, clinical, or drug development science (2), and voluntary health association representatives (2). The Secretary, or designee, shall appoint one of the members to serve as the Chair. In order to ensure reasonable continuity of membership, half of the initial members shall be invited to serve 2 year terms and half of the initial members shall be invited to serve 4 year terms. After the first two years, members shall be invited to serve for overlapping 4 year terms, except that any member appointed to fill a vacancy for an unexpired term shall be appointed for the remainder of such term. A member may serve after the expiration of the member's term until a successor has taken office. Non-federal members will serve as Special Government Employees.

20c. How frequent and relevant are the Committee Meetings?

The Advisory Council meets four times a year to discuss progress made on dementia research, care, and services. The Council also uses these quarterly meetings to discuss and create recommendations, which are sent to the Secretary of Health and Human Services and to Congress for possible action. The quarterly meetings allow the Council to have enough time to consider and evaluate progress and programs on dementia around the country. Meetings also have themes, where experts are invited to provide insight into less well-known issues around dementia, and to help the Council focus in on gaps in information and research.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

The Committee is required by Public Law 111-375 (42 U.S.C. 11225), the National Alzheimer's Project Act.

20e. Why is it necessary to close and/or partially closed committee meetings?

Not applicable- all meetings are open.

21. Remarks

In FY2023, this Advisory Committee released the following recommendations:

<https://aspe.hhs.gov/sites/default/files/documents/48806aa427da7872bcd408e5cd4afe64/napa->

Please note that these recommendations were made and adopted during the 7/31/2023 meeting.

The Advisory Committee also provided input on the 2023 Update to the National Plan to Address Alzheimer's Disease, which will be available at <https://aspe.hhs.gov/reports/national-plan-2023-update> in December 2023. GSA Comment: The agency did not complete the FY23 ACR for this

committee.

Narrative Description

The Advisory Council on Alzheimer's Research, Care, and Services consists of 22 members who meet quarterly to discuss the efficacy of government programs targeting the needs of individuals and caregivers coping with the consequences of Alzheimer's disease and related dementias. On an annual basis, the Advisory Council makes recommendations to the Secretary of HHS and to Congress. To the extent possible, these recommendations are incorporated into the annually-updated National Plan to Address Alzheimer's Disease.
