20a. How does the Committee accomplish its purpose?

The Committee will advise the Secretary of Agriculture, through the Chief of the Forest Service, by providing advice and recommendations for developing an ecologically, socially, and economically sustainable forest management strategy on the Tongass National Forest. Recommendations and advice may directly inform the development of a proposed action for modification of the 2008 Tongass Land Management Plan. This forest management strategy will emphasize a shift to young growth

management. The rationale for shifting to a predominantly young growth-based forest management program is explained in the January, 2013 Leader's Intent Paper, providing overall direction for the Committee. The 5-Year Tongass Integrated Plan (TIP), finalized in May 2013, identified more than 10 years of old growth timber that provides the short term bridge from which the Committee will work. Planning, integration and funding of that program of work has been driven and guided by work on key projects with collaborative partners.

20b. How does the Committee balance its membership?

The Committee will be fairly balanced in its membership in terms of the points of view represented and the functions to be performed. The Committee will be comprised of not more than 15 members. The members appointed to the Committee will be knowledgeable of ecological, social, and economic issues impacting Southeast Alaska, while providing a balanced and broad representation within the following interests: I. Federally Recognized Tribes, Alaska Native Organizations and/or Alaska Native Corporation representatives;ii. National or regional environmental and/or conservation organizations;iii. Timber industry representatives; iv. Federal, State and local government representatives; and v. Other commercial users, those holding land use permits or the public at large.

20c. How frequent and relevant are the Committee Meetings?

Estimated Number of Meetings per Year - 4, or as often as needed to perform its duties.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

The committee is necessary to improve collaborative relationships among the people that use and care for the National Forests and to provide advice and recommendations to the Forest Service concerning the transition and revisions of the Tongass National Forest Plan from old growth timber to 2nd growth timber.

20e. Why is it necessary to close and/or partially closed committee meetings?

All meetings are open to the public.

21. Remarks

Tongass Advisory Committee held six advisory committee meetings and made two recommendations in FY2015. Tongass Advisory Committee held one advisory committee meeting in FY2016. DFO requested the committee charter not be renewed following its expiration (2/2016).
