20a. How does the Committee accomplish its purpose?

The Practicing Physicians Advisory Council (PPAC) advises the Secretary on certain proposed changes in the Medicare regulations and manual instructions relative to physicians' services. The Council has been very instrumental in developing the Centers for Medicare & Medicaid Services (CMS)(formerly the Health Care Financing Administration) policies pertaining to practicing physicians, as identified by the Secretary according to the authority and charter. A number of topics were presented to the Council during the FY 2010 quarterly meetings including the Physicians Regulatory Issues Team(PRIT) Update; Physician Quality Reporting Initiative (PQRI) and E-prescribing Update,Physician Resource Use Measurement and Reporting Program Update,Quality Improvement Initiative, 10th Scope of Work Update, Fraud and Abuse Update,Medicare Physician Fee Schedule (MPFS) Final Rule, OPSP/ASC Fee Schedule Final Rule, Provider Enrollment and Chain Ownership System (PECOS), Electronic Health Record Update, Recovery Audit Contractors(RAC)Update, and other issues of importance to the medical community. Since all of the physicians on the Council are participating physicians in the program, their expertise and comments on said proposals and instructions are most worthy and informative to the Secretary.

20b. How does the Committee balance its membership?

The Council currently consists of 11 members, each of whom has submitted at least 250 claims for physicians' services under Title XVIII in the previous year. (The Council officially accommodates 15 seats. Four vacancies currently exist on the Council as four physicians fulfilled their term agreements in 2009. CMS put forth recommendations of four qualified candidates to fill those vacancies. Final appointment of candidates was pending Secretary approval. However, the Affordable Care Act of 2010 (ACA)repealed the Council as of 3/23/2010.) At present, 10 members are, as described in Section 1861r(l), doctors of medicine and osteopathy and one is a limited license practitioner. Physicians on the Council also represent an equitable number of rural and urban physicians. Geographic, minority, and female representation on the Council are also important factors with regards to the physicians selected by the Secretary. Currently, three physicians are minority and three are female.

20c. How frequent and relevant are the Committee Meetings?

The quarterly meetings of the Council allow CMS/HHS officials to garner timely input from the Council members on proposed regulatory and contractor manual instruction changes which impact Medicare physician practices. It is this review and comment process, which includes CMS provider partners, that makes the continuing operation of the Council important.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

Council members are all practicing physicians. Meeting with the Council members and soliciting their recommendations on proposed regulations enables the Secretary and the Department to gain valuable information and insight into the daily operation of physician practices with relation to their participation in the Medicare Program.

20e. Why is it necessary to close and/or partially closed committee meetings?

No formal council meetings have been closed to the public.

21. Remarks

Designated Federal Official: Kelly Buchanan - Division of Provider Relations and Evaluations, Center for Medicare Management, Centers for Medicare & Medicaid Services (CMS) This committee provides recommendations throughout the year, on a quarterly basis with an annual report following the December meeting. No report will be issued this year since the group was terminated. NOTE: The Patient Protection and Affordable Care Act mandates the dissolution of the Council. The Secretary, DHHS, signed the decision memo to disband the Council immediately. 18 (2) FOCUSING CMS RESOURCES ON POTENTIALLY 19 OVERVALUED CODES.—Section 1868(a) of the Social Security Act (42 U.S.C. 1395ee(a)) is repealed.
