19. Federal Staff Support Years (FTE)	0.00	0.00

20a. How does the Committee accomplish its purpose?

The NOAA CPDC – S&A 1.3 will develop a draft Climate Change Science Program (CCSP) Synthesis and Assessment Product that addresses Topic 1.3: “Re-analyses of historical climate data for key atmospheric features: Implications for attribution of causes of observed

change.” The committee is directed to comply with NOAA's Information Quality Act Guidelines in the development of the S&A Product. The NOAA CPDC – S&A 1.3 will update NOAA on the progress during the development of the product and will agree upon the contents of the product before advising NOAA to adopt the language. The NOAA CPDC – S&A 1.3 will function solely as an advisory body and will comply with the requirements of the Federal Advisory Committee Act. The Committee met in open session on June 25-27, 2007 to review the first draft and a second draft was posted on the CCSP website on April 14, 2008 for public review. The Committee expects to post a Final Report before November 21, 2008.

20b. How does the Committee balance its membership?

The NOAA CPDC—S&A 1.3 shall assure a balanced representation of scientific views among preeminent scientists, educators, and experts reflecting the full scope of the scientific issues addressed in CCSP Synthesis and Assessment Product 1.3. Members will be selected on a clear, standardized basis, in accordance with applicable Department of Commerce guidance.

20c. How frequent and relevant are the Committee Meetings?

Estimated Number of Meetings per Year - 1; 1 meeting held in FY07 (see discussion in next box for relevance). No meetings were required in FY08; much collaboration and work was accomplished via email.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

The NOAA CPDC-S&A 1.3 is necessary to

develop a draft CCSP Synthesis and Assessment Product that addresses CCSP Topic 1.3: “Re-analyses of historical climate data for key atmospheric features: Implications for attribution of causes of observed change.” The proposed Report is intended to provide an expert assessment of the capability and limitations of state-of-the-art climate reanalyses, as defined above, to describe past and current climate conditions, and the consequent implications for scientifically interpreting the causes of climate variations and change. The information in the Report will provide a basis for decision-makers and policymakers to understand the present level of confidence and uncertainties in describing how the climate system has varied in the recent historical past, and how this has enabled, and in some cases limited, our ability to identify the causes of such variations.

20e. Why is it necessary to close and/or partially closed committee meetings?

N/A -- no closed meetings of the FACA Committee were held.

21. Remarks

Designated Federal Officer

Neil K Christerson DFO

Committee Members	Start	End	Occupation	Member Designation
Arkin, Phillip	03/02/2007	11/21/2008	Professor, University of Maryland	Special Government Employee (SGE) Member

Schubert, Siegfried	03/02/2007	11/21/2008	Physical Scientist, NASA	Regular Government Employee (RGE) Member

Number of Committee Members Listed: 12

Narrative Description

The development of S&A 1.3 by the NOAA CPDC supports the NOAA Mission to To understand and predict changes in Earth's environment and conserve and manage coastal and marine resources to meet our Nation's economic, social, and environmental needs." S&A 1.3 directly supports the NOAA Strategic Plan Climate Goal, Understand climate variability and change to enhance society's ability to plan and respond. Under the Climate Goal, this S&A product contributes to Outcomes, Performance Objectives, and specific climate strategies to achieve those objectives.

What are the most significant program outcomes associated with this committee?

Checked if
Applies

- | | |
|---|-------------------------------------|
| Improvements to health or safety | <input type="checkbox"/> |
| Trust in government | <input type="checkbox"/> |
| Major policy changes | <input type="checkbox"/> |
| Advance in scientific research | <input checked="" type="checkbox"/> |
| Effective grant making | <input type="checkbox"/> |
| Improved service delivery | <input type="checkbox"/> |
| Increased customer satisfaction | <input type="checkbox"/> |
| Implementation of laws or regulatory requirements | <input type="checkbox"/> |
