**20a. How does the Committee accomplish its purpose?**

The CCSP Product Development Committee for Synthesis and Assessment Product 5.3 will develop a draft product that addresses topic 5.3: Decision Support Experiments and Evaluations Using Seasonal to Interannual Forecasts and Observational Data.

**20b. How does the Committee balance its membership?**

The committee shall not exceed 30 members appointed to assure a balanced representation of scientific views among preeminent scientists, educators, and experts reflecting the full scope addressed in CCSP S&P 5.3.

**20c. How frequent and relevant are the Committee Meetings?**

The committee met in Tucson, Arizona, on 10 and 11 January 2008 to address the NRC comments; it was an open meeting advertised in the Federal Register. We do not anticipate any further public meetings until the release of the document (expected in the next few months).

**20d. Why can't the advice or information this committee provides be obtained elsewhere?**

The committee is necessary to comply with the Global Change Research Act of 1990 (Public Law 101-606, Section 106) which requires the Government to submit a scientific assessment on a number of different topics relating to global climate change.

**20e. Why is it necessary to close and/or partially closed committee meetings?**

N/A

**21. Remarks**

CCSP 5.3 FACA committee terminated 10/12/2008; Final printed report published November 2008 CCSP 5.3 - Decision support experiments and evaluations using seasonal to interannual forecasts and observational data The U.S. Climate Change Science Program (CCSP), established in 2002 to coordinate climate and global change research conducted in the United States and to support decision-making on

climate-related issues, is producing twenty-one synthesis and assessment reports that address its research, observation, and decision-support needs. This report, to be produced by the National Oceanic and Atmospheric Administration (NOAA) in coordination with other federal agencies, will focus on supporting adaptive management and planning for resources and physical infrastructure affected by climate variability and change, and building new partnerships with public and private sector entities that can benefit both research and decisions.

**Number of Committee Members Listed: 18**

**Narrative Description**

Committee was not established until FY 07. This committee supports two of NOAA's long-term strategic goals to (a) understand climate variability and change to enhance society's ability to plan and respond and (b) serve society's needs for weather and water information. This product will provide additional knowledge on how society uses climate and water information, particularly when it impacts water resources in decision making.
