Not Reported	04/30/2009	- 05/01/2009
Not Reported	09/11/2009	- 09/11/2009

Number of Committee Meetings Listed: 3

	Current FY	Next FY
18a(1). Personnel Pmts to Non-Federal Members	\$7,600.00	\$7,600.00
18a(2). Personnel Pmts to Federal Members	\$0.00	\$0.00
18a(3). Personnel Pmts to Federal Staff	\$85,383.00	\$113,357.00
18a(4). Personnel Pmts to Non-Member Consultants	\$0.00	\$0.00
18b(1). Travel and Per Diem to Non-Federal Members	\$21,087.00	\$21,298.00
18b(2). Travel and Per Diem to Federal Members	\$0.00	\$0.00
18b(3). Travel and Per Diem to Federal Staff	\$0.00	\$0.00
18b(4). Travel and Per Diem to Non-member Consultants	\$0.00	\$0.00
18c. Administrative Costs (FRNs, contractor support, In-person/hybrid/virtual meetings)	\$0.00	\$0.00
18d. Other (all other funds not captured by any other cost category)	\$4,326.00	\$4,370.00
18e. Total Costs	\$118,396.00	\$146,625.00
19. Federal Staff Support Years (FTE)	0.70	0.80

20a. How does the Committee accomplish its purpose?

This committee is composed entirely of

recognized biomedical and/or behavioral research authorities who represent the forefront of research and technical knowledge in the mapping of loci responsible for the genetic contribution to common disorders in humans, including, but not limited to, cardiovascular and pulmonary disease, cancer, psychiatric disorders, diabetes, and autoimmune diseases. The Center for Inherited Disease Research (CIDR) is a consortium of 13 Institutes. The National Human Genome Research Institute is the lead agency for the consortium which manages CIDR through a Board of Governors representing each of the 13 Institutes. CIDR advises the Director, NIH, and the Board of Governors on the scientific and technical merit of applications seeking to use the genotyping and genetic analysis capabilities of CIDR. During this reporting period the committee approved 29 applications requesting access to the CIDR facility.

20b. How does the Committee balance its membership?

The members of this committee are recognized authorities knowledgeable in the various disciplines and fields of human genetics, quantitative genetics, linkage and segregation analysis, and genotyping technology.

20c. How frequent and relevant are the Committee Meetings?

The Center for Inherited Disease Research Access Committee held three meetings during this reporting period.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

This committee is composed entirely of recognized biomedical and/or behavioral research

authorities who represent the forefront of research and technical knowledge and who provide review of highly scientific and technical research applications requesting access to the CIDR facility. These evaluations and recommendations cannot be obtained from other sources because the specialized, complex nature of the applications requires a unique balance and breadth of expertise not available on the NIH staff or from established sources.

20e. Why is it necessary to close and/or partially closed committee meetings?

The meetings of the Center for Inherited Disease Research Access Committee were closed to the public for the review of applications. Sections 552b(c)(4) and 552b(c)(6) of the Government in the Sunshine Act permit the closing of meetings where discussion could reveal confidential trade secrets or commercial property such as patentable material and personal information, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

21. Remarks

15 Other - Review of requests for access to CIDR

Narrative Description

The goal of NIH research is to acquire new knowledge to help prevent, detect, diagnose, and treat disease and disability, from the rarest genetic disorder to the common cold. The NIH mission is to uncover new knowledge that will lead to better health for everyone. NIH works toward that mission by supporting the research of non-Federal scientists in universities, medical schools, hospitals, and research institutions throughout the country and abroad. Section 492 of the PHS Act states that The Secretary ...shall by regulation require appropriate technical and scientific peer review

of -(A) applications...; and (B) biomedical and behavioral research and development contracts...

What are the most significant program outcomes associated with this committee?

Checked if
Applies

- Improvements to health or safety
- Trust in government
- Major policy changes
- Advance in scientific research
- Effective grant making
- Improved service delivery
- Increased customer satisfaction
- Implementation of laws or regulatory requirements
- Other

Outcome Comments

NA

What are the cost savings associated with this committee?

Checked if Applies

- None
- Unable to Determine
- Under \$100,000
- \$100,000 - \$500,000
- \$500,001 - \$1,000,000
- \$1,000,001 - \$5,000,000
- \$5,000,001 - \$10,000,000
- Over \$10,000,000
- Cost Savings Other

Cost Savings Comments

NIH supported basic and clinical research accomplishments often take many years to unfold into new diagnostic tests and new ways to treat and prevent diseases.

What is the approximate Number of recommendations produced by this committee

for the life of the committee?

204

Number of Recommendations Comments

One-hundred-seventy-five projects were recommended for access consideration to CIDR including the thirty-six projects considered in 2008.

What is the approximate Percentage of these recommendations that have been or will be Fully implemented by the agency?

0%

% of Recommendations Fully Implemented Comments

Section 9(b) of the Federal Advisory Committee Act states that unless otherwise specifically provided by statute or Presidential directive, advisory committees shall be utilized solely for advisory functions. Determinations of action to be taken and policy to be expressed with respect to matters upon which an advisory committee reports or makes recommendations shall be made solely by the President or an officer of the Federal Government.

What is the approximate Percentage of these recommendations that have been or will be Partially implemented by the agency?

0%

% of Recommendations Partially Implemented Comments

Section 9(b) of the Federal Advisory Committee Act states that unless otherwise specifically provided by statute or Presidential directive, advisory committees shall be utilized solely for advisory functions. Determinations of action to be taken and policy to be expressed with respect to matters upon which an advisory committee reports or makes recommendations shall be made solely by the President or an officer of the Federal Government.

Does the agency provide the committee with feedback regarding actions taken to implement recommendations or advice offered?

Yes No Not Applicable

Agency Feedback Comments

The agency provides oral and written reports.

What other actions has the agency taken as a result of the committee's advice or recommendation?

Checked if Applies

- Reorganized Priorities
- Reallocated resources
- Issued new regulation
- Proposed legislation
- Approved grants or other payments
- Other

Action Comments

The agency has taken no other actions as a result of this committee.

Is the Committee engaged in the review of applications for grants?

No

Grant Review Comments

Successful applicants are provided with access to the genotyping and genetic analysis capabilities of CIDR rather than funds. The access to CIDR is paid by the Institute or Center that funded the original grant application.

How is access provided to the information for the Committee's documentation?

Checked if Applies

- Contact DFO
- Online Agency Web Site
- Online Committee Web Site
- Online GSA FACA Web Site
- Publications
- Other

Access Comments
