20a. How does the Committee accomplish its purpose?

Years (FTE)

The Committee was charged with developing language for the Climate Change Science Program (CCSP) Synthesis and Assessment Product that addressed Topic 1.1: Temperature trends in the lower atmosphere -- steps for understanding and reconciling differences. The committee met in open session on February 8-9, 2006 to review public comments received on the second draft, and a final draft was posted on the CCSP web-site on March 15, 2006 and presented to the CCSP Principals for review and forwarding to the NSTC (National Science and Technology Council) for final approval. The Final Report was posted on May 2, 2006.

20b. How does the Committee balance its membership?

Members were chosen to assure a balanced representation of scientific views among preeminent scientists, educators, and experts reflecting the full scope of the scientific issues addressed in CCSP Synthesis and Assessment Product 1.1.

20c. How frequent and relevant are the Committee Meetings?

The committee held one meeting to review public comments on the second draft report. This meeting was a critical step in developing a third and final draft of the Product.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

This Committee was essential so that the Secretary of Commerce could comply with duties imposed on the Department, including the Global Change Research Act of 1990 (P.L. No. 101-606, Section 106), and NOAA could meet its CCSP lead agency responsibilities for development of this Synthesis and Assessment Product. There was no other source available to provide the advice given by the Committee.

20e. Why is it necessary to close and/or partially closed committee meetings?

N/A -- no closed meetings of the FACA committee were held.

21. Remarks

None

Narrative Description

This Committee supported NOAA in fulfilling lead agency responsibilities for development of the U.S. Climate Change Science Program (CCSP) Synthesis and Assessment Product addressing Topic 1.1: Temperature trends in the lower atmosphere - steps for understanding and reconciling differences. It is in direct support of the Strategic Plan Mission Goal To Understand Climate Variability and Change to Enhance Society's Ability to Plan and Respond.

What are the most significant program outcomes associated with this committee?

	Checked if	
	Applies	
Improvements to health or safety		
Trust in government		
Major policy changes		
Advance in scientific research		
Effective grant making		
Improved service delivery		
Increased customer satisfaction		
Implementation of laws or regulatory		
requirements		
Other		✓

Outcome Comments

The Product developed by this committee was the first Synthesis and Assessment Product successfully completed. It demonstrates the value of this series of synthesis products and provides a sound basis for public debate, policy, and operational decisions.

What are the cost savings associated with this committee?

	Checked if Applies
None	\checkmark
Unable to Determine	
Under \$100,000	
\$100,000 - \$500,000	
\$500,001 - \$1,000,000	
\$1,000,001 - \$5,000,000	
\$5,000,001 - \$10,000,000	
Over \$10,000,000	
Cost Savings Other	

Cost Savings Comments

The Committee deliberations did not include consideration of, or recommendations regarding, cost reductions or avoidance.

What is the approximate <u>Number</u> of recommendations produced by this committee for the life of the committee?

1

Number of Recommendations Comments

The Committee agreed on the contents of the product and advised NOAA to adopt the language contained in the Final Draft of the Systhesis and Assessment Product.

What is the approximate <u>Percentage</u> of these recommendations that have been or will be <u>Fully</u> implemented by the agency?

100%

% of Recommendations Fully Implemented Comments

The Final Report, based on the language developed by the FACA committee, was approved and posted on the CCSP web-site on May 2, 2006. In conformance with Guidelines for Producing CCSP Synthesis and Assessment Products, the final version of Synthesis and Assessment Product 1.1 was released subsequent to consideration and approval by the CCSP Interagency Committee and the National Science and Technology Council.

What is the approximate <u>Percentage</u> of these recommendations that have been or will be <u>Partially</u> implemented by the agency? 0%

% of Recommendations <u>Partially</u> Implemented Comments Not Applicable.

Does the agency provide the committee with feedback regarding actions taken to implement recommendations or advice offered?

Yes 🗌 No 🗌 Not Applicable 🗹

Agency Feedback Comments

NA

What other actions has the agency taken as a result of the committee's advice or recommendation?

Checked if Applies

Action Comments

The agency action taken as a result of the Committee advice was forwarding the Final Draft of the Synthesis and Assessment Report to the Climate Change Science Program for approval and release.

Is the Committee engaged in the review of applications for grants? No

Grant Review Comments

Not Applicable

How is access provided to the information for the Committee's documentation?
