20a. How does the Committee accomplish its purpose?

Focus of the Roadmap Committee was on the following objective: To use NASA missions and other activities to inspire and motivate the nation's students and teachers, to engage and educate the public, and to advance the nation's scientific and technological capabilities. The committee was to meet to hear presentations from individuals expert in the scientific and technical aspects of their charter. The committee members were to discuss these presentations in the context of their own expertise and identify areas to be studied further

between meetings, with the intention of producing a roadmap identifying critical investigations to be undertaken by NASA to further specific areas of scientific inquiry.

20b. How does the Committee balance its membership?

The membership appointments attempted to strike a distribution, suitable for its specific focus, with broad representation from government, industry, and the academic community.

20c. How frequent and relevant are the Committee Meetings?

Estimated Number of Meetings per Year - 4. No meetings were held. The committee did not meet during its period of performance due to the NASA Strategic Roadmap efforts being terminated by NASA Administrator. However, in the preparation for a meeting, the plan of action was to follow agendas prepared in advance that were designed to ensure a full exposure of issues related to its charter and to permit adequate discussion of these issues by the membership.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

The committee was established to develop a NASA Strategic Roadmap in its chartered domain based on expertise resident within and outside of NASA. A Strategic Roadmap is a coordinated and comprehensive longitudinal strategy that identifies key objectives and time-phased implementation elements, potential achievements, priorities, options, and decision points and criteria. The roadmap is to be subsequently used by NASA to inform decisions on scientific objectives, resource allocation, and technology investments.”

20e. Why is it necessary to close and/or partially closed committee meetings?

Not applicable.

21. Remarks

This committee was terminated upon the direction of the NASA Administrator.
