20a. How does the Committee accomplish its purpose?

The Commission was established in 2002, through Public Law 107-135, and charged to provide advice and recommendations to Congress and the

Secretary of Veterans Affairs (VA) regarding legislative and organizational policy changes to enhance the recruitment and retention of nurses and other nursing personnel in the Department. The Commission focused on identifying strategies and tactics to assure the readiness and capacity of VA to meet the current and future nursing needs of American's veterans. In putting forth its recommendations, the Commission reviewed the findings from multiple sources and sought to develop visionary changes to the Veterans Health Administration (VHA) that, if implemented, will serve to assure that nurses will be available in adequate numbers with the requisite skills for caring for the nation's veterans through the foreseeable future. Further, the Commission believes that if VHA were to implement these recommendations, it will serve as a model for nursing throughout the nation. Through deliberate processes of review, analysis and synthesis, the Commission developed its recommendations in the areas of leadership, professional development, work environment, respect and recognition, fair compensation, technology, and research/innovation. The Commission submitted to the Secretary and Congress its findings and recommendations in its final report on March 18, 2004, including 18 recommendations.

20b. How does the Committee balance its membership?

The Commission included 12 members appointed by the Secretary from knowledgeable VA and non-VA experts. Two were representatives of employees (including nurses) of the VA, one a representative of professional associations of nurses of the Department or similar organizations affiliated with the Department of VA health care practitioners, one a nurse from a nursing school

affiliated with the VA, two were representatives of veterans and one economist. The remainder were appointed as the Secretary considered appropriate. Geographic, ethnic, gender and advocacy representations were attributes highly valued within the Commission and to the group's topic deliberations.

20c. How frequent and relevant are the Committee Meetings?

The Commission had two meetings this year. The meetings were designed to generate relevant input from various sources to allow the Commission to meet its mandate in a timely fashion.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

The Commission was established pursuant to Public Law 107-135 and terminated 90 days after the date of submission of its final report.

20e. Why is it necessary to close and/or partially closed committee meetings?

Meetings were open to the public.
