20a. How does the Committee accomplish its purpose?

The Advisory Committee on Renewable Energy Exports was established to promote the export of goods and services to be used in the development, production and distribution of non-nuclear renewable energy, and to support the export of goods and services that have a beneficial effect on the environment. The Committee accomplishes this purpose by providing advice and recommendations to Ex-Im Bank concerning non-nuclear renewable energy exports.

20b. How does the Committee balance its membership?

The twelve member Committee shall be broadly representative of parties with an interest in renewable energy exports, including, but not limited to: trade associations and individual companies engaged in the non-nuclear renewable energy export industry, non-governmental organizations with expertise in renewable energy export markets, academia, trade finance institutions, and Federal and state agencies.

20c. How frequent and relevant are the Committee Meetings?

The committee meets at least twice a year to discuss relevant topics.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

This committee is essential because members bring expertise and experience that is unavailable elsewhere.

20e. Why is it necessary to close and/or partially closed committee meetings?

All meetings of the Advisory Committee on Renewable Energy Exports are opened to the public.

21. Remarks

Designated Federal Officer

James H. Lambright Executive Vice President
