**20a. How does the Committee accomplish its purpose?**

This committee reviews research grant proposals and contracts that require a unique combination of reviewer expertise, e.g., for complex multidisciplinary projects and new areas of study, or that require standards of review different from those ordinarily applied by standing peer review committees because of project size, or that require expedited review. The Committee also supports the review of certain grant applications using field reviewers who are paid fees ranging from \$50 to \$100 per review. These field reviewers may be either member or non-member.

**20b. How does the Committee balance its membership?**

The Committee has fluid membership, with members designated to serve for individual meetings rather than formally appointed for fixed terms of service. Membership during FY 2002 included individuals representing the fields of health services research, including , but not limited to, basic biomedical and clinical disciplines, health care technology development and assessment, clinical social, organizational, and information sciences.

**20c. How frequent and relevant are the Committee Meetings?**

Meetings will be held as necessary as determined by the Designated Federal Official (DFO), who shall approve the agenda. A government official shall be present at all meetings. Review meetings may be conducted by assembly or by teleconference or mail ballot, as appropriate.

**20d. Why can't the advice or information this committee provides be obtained elsewhere?**

As stated in 20b, the members of the Panel are eminently qualified to carry out the duties of the Panel by virtue of their training or experience and fulfill the peer review required set forth by legislation. Due to the diversity and the short turn around time of these reviews, i.e., ad hoc grant reviews and contracts reviews, no other source is available to handle the reviews.

**20e. Why is it necessary to close and/or partially closed committee meetings?**

Portions of the meetings involve review, discussion, and evaluation of individual grant applications. These applications and the discussions of them are likely to reveal personal information concerning individual associated with the applications.

**21. Remarks**

**Designated Federal Officer**

Francis Chesley Director, Office of Research Review, Education and Policy, AHRQ
