20a. How does the Committee accomplish its purpose?

The committee's design was to provide a forum for public discussion of security policy. In particular government contractors maintained an obvious interest in such policy and were a primary target of the committee's endeavors. The mechanism of communication was quarterly meetings held in various localities throughout the country. The committee had a major impact in communicating to the Executive Branch the depth of community feeling (negative) with respect to the backlog of personnel security investigations. The committee was also been a propulsive force in the establishment of a community wide data base for security clearance information.

20b. How does the Committee balance its membership?

The committee had four diverse members, all of whom were currently involved in the private sector. All four also previously enjoyed government careers and, as such, bring to the table a dual perspective and a welcome sense of proportion.

20c. How frequent and relevant are the Committee Meetings?

The committee did not meet this fiscal year.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

The committee's input was unique in that it represented an ever present insitutional presence--a kind of bureaucratic balance which can only be accomplished with a permanent presence.

20e. Why is it necessary to close and/or partially closed committee meetings?

No meetings were held this fiscal year.

21. Remarks

This committee was terminated on March 1, 2001.
The committee was inactive in FY-01.
