20a. How does the Committee accomplish its purpose?

The Committee advises the National Science Foundation (NSF) on the merit of proposals requesting financial support for research and research related activities. The panel reviews proposals submitted to NSF under the purview of the Division of Industrial Innovation and Partnerships (IIP). Members review, evaluate and provide written recommendations on proposals as part of the selection process for awards. Members may evaluate and provide advice on the progress of awarded proposals.

20b. How does the Committee balance its membership?

Members are selected to be representative of the scientific areas encompassed by IIP activities. Every effort is made to achieve a gender diverse membership with representation including individuals from underrepresented groups and different geographic regions.

20c. How frequent and relevant are the Committee Meetings?

There were 228 meetings that occurred

throughout Fiscal Year 2019.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

The panel provides the unique opportunity for the reviewers to provide judgments about the comparative merits within a group of proposals and advice to the Program Officers on the merits of each proposal. Ad hoc mail reviewers with specific expertise can be selected to give a thorough technical review of a proposal.

20e. Why is it necessary to close and/or partially closed committee meetings?

Proposals reviewed include information of a proprietary or confidential nature, including technical information, financial data such as salaries, and personal information concerning the individuals associated with the proposals.

Narrative Description

The NSF mission is set out in the NSF Act of 1950 authorizes and directs the Agency to initiate and support: basic scientific research and research fundamental to the engineering process; and science and engineering education programs at all levels and in all fields of science and engineering. The involvement of knowledgeable peers from outside the Foundation in the review of proposals is the keystone of NSF’s proposal review system. Their judgments of the extent to which proposals address the merit review criteria are vital for informing NSF staff and influencing funding recommendations.
